

Figure 3: Dihedral Angles for Position Lights

(28) Ballast Water.

Discussion

To minimize the possibility of environmental contamination from ballast water, there will be provisions in the airship or servicing provisions that ensure that biological or chemical contamination does not occur due to the servicing of ballast water of one location and dumping of water in a different location. This provision will be added to the certification basis as a special environmental requirement:

Under no circumstances may water ballast be loaded or released that does not comply with the provisions of 40 CFR part 141, National Primary Drinking Water Regulations. Obtaining water from a water supply use for human consumption is acceptable; water aurally released or otherwise dumped cannot degrade beyond the limits set by 40 CFR part 141. If ballast water is contaminated, it can only be released into appropriate sewage facilities in accordance with national and local laws and regulations. These provisions will be explained in the Airship Flight Manual and ground operations materials and manuals. Procedures will also be developed that will eliminate the possibility of biological contamination growing in the ballast system and then being jettisoned or dumped, unless detected and treated.

The ballast system will have a method of securing filler locations to eliminate the possibility of tampering with the system.

Issued in Kansas City, Missouri, on March 21, 2008.

David R. Showers

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Commercial Space Transportation Advisory Committee—Open Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Commercial Space Transportation Advisory Committee Open Meeting.

SUMMARY: Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. App. 2), notice is hereby given of a meeting of the Commercial Space Transportation Advisory Committee (COMSTAC). The meeting will take place on Friday, May 16, 2008, starting at 8 a.m. at the Federal Aviation Administration Headquarters Building, 800 Independence Avenue SW., Washington, DC, in the Bessie Coleman Conference Center, located on the 2nd Floor. This will be the forty-seventh meeting of the COMSTAC.

The proposed agenda for the meeting will feature the release of the 2008 Commercial Space Transportation Forecasts, a briefing on the FAA

Commercial Space Transportation Safety Approval process; and a report on AST activities. An agenda will be posted on the FAA Web site at <http://ast.faa.gov>. Meetings of the COMSTAC Working Groups (Technology and Innovation, Reusable Launch Vehicle, Risk Management, and Launch Operations and Support) will be held on Thursday, May 15, 2008. For specific information concerning the times and locations of the working group meetings, contact the Contact Person listed below.

Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should inform the Contact Person listed below in advance of the meeting.

FOR FURTHER INFORMATION CONTACT: Brenda Parker (AST-100), Office of Commercial Space Transportation, 800 Independence Avenue SW., Room 331, Washington, DC 20591, telephone (202) 267-3674; E-mail brenda.parker@faa.gov.

Issued in Washington, DC, March 21, 2008.

George C. Nield,

Acting Associate Administrator for Commercial Space Transportation.
