Primary: Director, Naval Criminal Investigative Service, Washington Navy Yard, Building 111, 716 Sicard Street, SE., Washington Navy Yard, DC 20388-5380.

Decentralized Segments: Naval Criminal Investigative Service Field Offices (NCISFOs) retain duplicate copies of certain segments of the administrative files. Official mailing addresses are published in the Standard Navy Distribution List that is available at <http://doni.daps.dla.mil/sndl.aspx>.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Past and present civilian, military, and foreign national personnel assigned world-wide to the Naval Criminal Investigative Service. Persons communicating by correspondence with DON and NCIS.

CATEGORIES OF RECORDS IN THE SYSTEM:

Full name, Social Security Number (SSN), grade level, duty station, special qualifications, or language qualifications, date and place of birth.

Personnel and Resource Information System—contains personnel management information/statistical information on NCIS personnel.

Special Agent Career Development Files—contains correspondence unique to the NCIS Special Agent, including annual physical examinations, assignment preferences, and special qualifications, which has a bearing on world-wide assignability, promotion, and general career assessment.

Weapons and Equipment Files—identifies credential numbers, badges,

PSP pins, and weapons assigned to authorized NCIS personnel.

Personnel Security Clearance File—identifies the classified material access level and date of last security clearance for assigned civilian and military personnel of NCIS.

Personnel Utilization Data File—provides statistical information regarding the manner by which available NCIS man-hours are expended in the execution of its assigned investigative and counterintelligence mission. The file is formed by the submission (monthly) of individual manhour diaries. All assigned personnel input to this system; their man-hours are categorized by function.

Unsubstantiated reports to DON components from members of the public alleging imminent invasion, plots, and similar events of a delusional nature and assorted “crank” letters.

Unsolicited letters and other communications received by or referred to NCIS for analysis and inquiry when contents convey or can be interpreted to convey a possible threat to DON persons or property.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 5013, Secretary of the Navy and E.O. 9397 (SSN).

PURPOSE(S):

The Personnel and Resource Information System is used to prepare all personnel documents and personnel statistical studies. It provides such information as the average grade, the total number and composition of personnel at each NCIS component, and the past assignments of personnel. It is used on a daily basis by personnel in the formation and execution of staffing actions for the various NCIS components, information verification of employee's tenure, and the compilation of necessary statistical studies.

Special Agent Career Development Files are used for in-house agency decisions regarding reassignment, promotion, career training, and long-range development. They form in-house agency repository for both adverse and favorable documents regarding Special Agents. The files have a long-range function, that of forming the basis for law enforcement retirement service certification. Though part of the file is duplicated in the official file maintained by the Civilian Personnel Office, the Special Agent Career Development File is considered privileged information and its contents are not released outside NCIS. Within NCIS, the files are maintained and controlled exclusively within the Career Services Division, NCIS, and by assigned personnel of that

Division. The files are released for review only to senior management personnel of NCIS.

Weapons and Equipment Files are used to identify and inventory credentials, weapons, badges, and handcuffs issued to authorized NCIS personnel.

Personnel Security Clearance Files are used to informally verify and authenticate security clearances issued to NCIS personnel. The file has a daily working purpose of acting as a check sheet for the updating of security clearances. It is used by the Commander, NCIS to certify the access level of certain assigned NCIS personnel to other Navy commands as well as civilian contractors. Personnel Utilization Data File is used to make analyses which modify the staffing levels at various NCIS components based on the actual work level. It further provides a tool to NCIS management to gauge the efficiency of all components by comparing their workload with the amount of man-hours available.

The records in this system may be used by other DoD components requiring confirmation of security clearance levels and for statistical purposes.

Unsolicited letters and other communications received by or referred to NCIS for analysis are used to determine if a possible threat exists or might exist at a later date upon the receipt of additional correspondence. When a threat is determined possible, a formal investigative case is opened.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

In addition to those disclosures generally permitted under 5 U.S.C. 552a(b) of the Privacy Act, these records or information contained therein may specifically be disclosed outside the DoD as a routine use pursuant to 5 U.S.C. 552a(b)(3) as follows:

To law enforcement activities conducting criminal or suitability investigations.

To the Office of Personnel Management when making personnel determinations, e.g., awards or disciplinary actions.

To credit companies in response to credit queries.

To personal physicians regarding medical records.

The ‘Blanket Routine Uses’ that appear at the beginning of the Navy's compilation of systems notices also apply to this system.
