

based sampling program for *E. coli* O157:H7 that takes into account establishment volume.

To continue to take steps to address *E. coli* O157:H7, FSIS will hold a public meeting on Wednesday and Thursday, April 9–10, 2008, to facilitate discussion with stakeholders on recent spikes in recalls and illnesses related to *E. coli* O157:H7; provide updates on FSIS initiatives related to *E. coli* O157:H7; and solicit input from producers, industry, consumers, academia, states, and other public health and regulatory agencies for possible solutions to address the challenges this pathogen presents.

All interested parties are welcome to attend the meeting and to submit written comments on the agenda items after they are discussed through May 7, 2008, to Mr. Payne by phone (202) 690–6522, fax (202) 690–6519, e-mail: Keith.payne@fsis.usda.gov, or at the mail address: USDA, FSIS, 1400 Independence Avenue, SW., Room 1175, South Building, Washington, DC 20250. Individuals who do not wish FSIS to post their personal contact information—mailing address, e-mail address, telephone number—on the Internet may leave the information off their comments.

The comments and the official transcript of the meeting, when they become available, will be posted on the agency's Web site at <http://www.fsis.usda.gov>.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it online through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2008_Notices_Index/. FSIS will also make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, and other types of information that could affect or would be of interest to constituents and stakeholders. The Update is communicated via Listserv, a free electronic mail subscription service for industry, trade groups, consumer interest groups, health professionals, and other individuals who have asked to be included. The Update is also available on the FSIS Web page. Through Listserv and the Web page, FSIS is able to provide information to a much broader and more diverse audience. In addition, FSIS offers an

electronic mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves, and have the option to password protect their accounts.

Done at Washington, DC, on: March 28, 2008.

Alfred V. Almanza,

Administrator.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, as amended by Pub. L. 106–36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before April 23, 2008. Address written comments to Statutory Import Programs Staff, Room 2104, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5:00 P.M. at the U.S. Department of Commerce in Room 2104.

Docket Number: 08–007. Applicant: University of Southern California, University Park, Los Angeles, CA 90089–9045. Instrument: Transmission Electron Microscope, Model JEM–2100. Manufacturer: Jeol, Inc., Japan. Intended Use: The instrument is intended to be used to visualize tissues, cells and purified biological molecules at high magnification by transmission electron microscopy. The tissues, cells and molecules to be imaged will be evaluated for their morphological and structural features. Application accepted by Commissioner of Customs: March 11, 2008.

Dated: March 28, 2008.

Faye Robinson,

Director Statutory Import Programs Staff.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce 14th and Constitution Ave., NW, Room 2104 Washington, D.C. 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Room 2104, U.S. Department of Commerce.

Docket Number: 08–008. Applicant: Rice University, 6100 Main Street, Houston, TX 77005. Instrument: Low Temperature Microscopy Scanning Probe. Manufacturer: Nano Magnetics Instruments, Ltd., Turkey. Intended Use: The instrument is intended to be used for imaging local magnetic field and change current distribution in semiconductor nanostructures. An essential feature of this instrument is that can supply 300mK scanning Hall probe microscopy with 50 NM special resolution. Application accepted by Commissioner of Customs: March 12, 2008.

Docket Number: 08–009. Applicant: University of Michigan, Department of Materials Science and Engineering, 2300 Hayward St., Ann Arbor, MI 48109–2136. Instrument: Heating Microscope Optical Dilatometer. Manufacturer: Expert System Solutions, Italy. Intended Use: This instrument will be used in a Defense Advanced Research Projects Agency (DARPA)-funded project on Direct Digital Manufacturing of Airfoils. The objective is to create a low-cost highly accurate method for manufacture of jet turbine engine airfoils for military aircraft. The Heating Microscope Optical Dilatometer hardware and software will be used for sintering shrinkage up to 1600 degrees centigrade,

thermal expansion down to room temperature and cristobalite transformation at 215 degrees centigrade. An essential feature of the equipment is that it perform a non-contact optical measurement. Application accepted by Commissioner of Customs: March 14, 2008.

Dated: March 28, 2008.

Polyethylene Terephthalate Film, Sheet, and Strip from the Republic of Korea: Final Results of Antidumping Duty Changed Circumstances Review and Reinstatement of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On October 2, 2007 the Department of Commerce (the Department) published the preliminary results of the changed circumstances review and intent to reinstate Kolon Industries, Inc. (Kolon) in the antidumping duty order on polyethylene terephthalate film, sheet and strip (PET film) from the Republic of Korea (Korea). *See Polyethylene Terephthalate Film Sheet and Strip from the Republic of Korea: Preliminary Results of Changed Circumstances Review and Intent to Reinstatement of Kolon Industries, Inc. in the Antidumping Order*, 72 FR 56048 (October 2, 2007) (*Preliminary Results*). On February 6, 2008 we extended the time frame for completion of this changed circumstances review by 60 days. *See Polyethylene Terephthalate Film, Sheet, and Strip from the Republic of Korea: Extension of Time Limits for Final Results of Changed Circumstances Review*, 73 FR 6931 (February 6, 2008).

This review covers subject merchandise manufactured and exported by Kolon. The products covered by this order are all gauges of PET film, sheet and strip (*see* "Scope of the Review" section below). The period of review (POR) is July 1, 2005 through June 30, 2006. Based on our analysis of the comments received, we have made changes in the margin calculation. Therefore, the final results differ from the preliminary results. We determine

that Kolon sold subject merchandise at less than normal value (NV) during the POR, and hereby reinstate Kolon in the order. The final weighted-average dumping margin is listed below in the section entitled "Final Results of Review."

EFFECTIVE DATE: April 3, 2008.

FOR FURTHER INFORMATION CONTACT:

Michael J. Heaney or Robert James, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4475 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 2, 2007, the Department published in the **Federal Register** the preliminary results of changed circumstances review and intent to reinstate Kolon in the antidumping order on PET film from Korea. *See Preliminary Results*. This review covers sales of subject merchandise by Kolon. The POR is July 1, 2005 through June 30, 2006.

We invited interested parties to comment on the preliminary results of review. On November 5, 2007, we received comments from Kolon and the petitioners (DuPont Teijin Films, Mitsubishi Polyester Film, Inc. and Toray Plastics (America) Inc.). On November 13, 2007, Kolon and the Petitioners filed rebuttal comments. At the request of Kolon, we held a hearing on this changed circumstances review on November 21, 2007. On February 6, 2008, we extended the time frame for completion of this changed circumstances review by 60 days. The Department has conducted this changed circumstances review in accordance with section 751(b) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

Imports covered by this review are shipments of all gauges of raw, pretreated, or primed polyethylene terephthalate film, sheet, and strip, whether extruded or coextruded. The films excluded from this review are metallized films and other finished films that have had at least one of their surfaces modified by the application of a performance enhancing resinous or inorganic layer of more than 0.00001 inches (0.254 micrometers) thick. PET film is currently classifiable under Harmonized Tariff Schedule (HTS) subheading 3920.62.00.90 The HTS subheading is provided for convenience and for customs purposes. The written

description remains dispositive as to the scope of the product coverage.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by Kolon and the Petitioners are addressed in the "Issues and Decision Memorandum" (Decision Memorandum) from Stephen J. Claeys, Deputy Assistant Secretary for Import Administration, to David M. Spooner, Assistant Secretary for Import Administration, dated March 30, 2008, which is adopted by this notice. A list of issues which parties have raised is in the Decision Memorandum and is attached to this notice as an appendix. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in the Decision Memorandum which is on file in the Central Records Unit, Room 1117, of the main Commerce Building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://www.ia.ita.doc.gov/frn>. The paper copy and the electronic version of the Decision Memorandum are identical in content.

Changes Since the Preliminary Results

Based on our analysis of the comments received, we have made certain changes in the margin calculations. These changes are discussed in the relevant sections of the Decision Memorandum and the Memorandum to the File from Michael J. Heaney dated March 31, 2007 (Analysis Memorandum). Specifically, for these final results:

- 1) We matched home market and U.S. sales of PET film by their actual thicknesses rather than by thickness ranges.
- 2) We made a deduction from CEP to account for bank and postal charges incurred by Kolon's U.S. affiliate.
- 3) We corrected a clerical error in our recalculation of variable cost of manufacture.

Final Results of Review

We determine that the following weighted-average margin percentage exists for the period July 1, 2005 through June 30, 2006:

Manufacturer/Exporter	Margin
Kolon	1.53 percent

Since we have established that PET film from Korea manufactured and exported by Kolon is being sold at less than NV, Kolon is hereby reinstated in the antidumping order effective on the publication date of this notice. We will
