**FEDERAL COMMUNICATIONS
COMMISSION**

47 CFR Part 101

Fixed Microwave Services

CFR Correction

In Title 47 of the Code of Federal Regulations, Part 80 to End, revised as of October 1, 2007, in § 101.113, on page 660, the following two entries are reinstated in numerical order in the table in paragraph (a):

§ 101.113 Transmitter power limitations.

- (a) * * *

Frequency band (MHz)	Maximum allowable EIRP ^{1,2}	
	Fixed ^{1,2} (dBW)	Mobile (dBW)
* * *	*	*
71,000-76,000 ¹³ ...	+55	+55
81,000-86,000 ¹³ ...	+55	+55
* * *	*	*

¹ Per polarization.

² For multiple address operations, see § 101.147. Remote alarm units that are part of a multiple address central station projection system are authorized a maximum of 2 watts.

* * * * *

¹³ The maximum transmitter power is limited to 3 watts (5 dBW) unless a proportional reduction in maximum authorized EIRP is required under § 101.115. The maximum transmitter power spectral density is limited to 150 mW per 100 MHz.

[Docket No. 070717340-8451-02]

RIN 0648-AV40

Fisheries of the Northeastern United States; Atlantic Mackerel, Squid, and Butterfish Fisheries; Specifications and Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: This action implements 2008 specifications and management measures for Atlantic mackerel, squid, and butterfish (MSB) and modifies existing management measures. Specifically, it clarifies gear requirements for the *Loligo* squid fishery, standardizes procedures for closing the Atlantic mackerel (mackerel) and butterfish fisheries, modifies incidental possession limits for mackerel and butterfish, and establishes a butterfish possession limit. These specifications and management measures promote the utilization and conservation of the MSB resource.

DATES: Effective May 5, 2008.

ADDRESSES: Copies of supporting documents used by the Mid-Atlantic Fishery Management Council (Council), including the Environmental Assessment (EA) and Regulatory Impact Review (RIR)/Initial Regulatory Flexibility Analysis (IRFA), are available from: Daniel Furlong, Executive Director, Mid-Atlantic Fishery Management Council, Room 2115, Federal Building, 300 South New Street, Dover, DE 19904-6790. The EA/RIR/IRFA is accessible via the Internet at <http://www.nero.nmfs.gov>. NMFS prepared a Final Regulatory Flexibility Analysis (FRFA), which is contained in the Classification section of the preamble of this rule. Copies of the FRFA and the Small Entity Compliance Guide are available from the Regional Administrator, Northeast Regional Office, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298, and are also available via the Internet at <http://www.nero.nmfs.gov>.

FOR FURTHER INFORMATION CONTACT: Carrie Nordeen, Fishery Policy Analyst, 978-281-9272, fax 978-281-9135.

SUPPLEMENTARY INFORMATION:

Background

Regulations implementing the Fishery Management Plan for the Atlantic Mackerel, Squid, and Butterfish Fisheries (FMP) appear at 50 CFR part 648, subpart B. Regulations governing foreign fishing appear at 50 CFR part 600, subpart F. These regulations, at § 648.21 and § 600.516(c), require that NMFS, based on the maximum optimum yield (Max OY) of each fishery as established by the regulations, annually publish a rule specifying the amounts of the initial optimum yield (IOY), allowable biological catch (ABC), domestic annual harvest (DAH), and domestic annual processing (DAP), as well as, where applicable, the amounts for total allowable level of foreign fishing (TALFF) and joint venture processing (JVP) for the affected species managed under the FMP. In addition, these regulations allow *Loligo* squid specifications to be specified for up to 3 years, subject to annual review. The regulations found in § 648.21 also specify that IOY for squid is equal to the combination of research quota (RQ) and DAH, with no TALFF specified for squid. For butterfish, the regulations specify that a butterfish bycatch TALFF will be specified only if TALFF is specified for mackerel.

The Council adopted 2008 MSB specifications and management measures at its June 2007 meeting and submitted them to NMFS for review and approval. Initial submission was on August 1, 2007, and final submission was on November 9, 2007. A proposed rule for 2008 MSB specifications and management measures was published on December 28, 2007 (72 FR 73749), and a notice to re-open the public comment period on the proposed rule was published on January 29, 2008 (73 FR 5153). The public comment period for the proposed rule ended on February 5, 2008. Details concerning the Council's development of these measures were presented in the preamble of the proposed rule and are not repeated here.

Disapproval of Increased Incidental *Loligo* Squid Possession Limit for Illex Squid Vessels

The issue of incidental catch of *Loligo* squid in the *Illex* squid fishery was identified several years ago when large amounts of *Loligo* squid discards were reported in vessel trip reports by *Illex* squid vessels during closures of the directed *Loligo* squid fishery in the summer and fall of 2000. Analyses developed for Amendment 9 to the FMP indicated that the *Illex* squid fishery occurs primarily during June-November
