

the purpose of reviewing the submitted cost forms and detailed supporting documentation.

On March 27, 2008, the Commission held a technical conference to review the FY 2007 OFA cost submissions, which was attended by OFAs and licensees. As of the date of this notice, the Commission has not received any further information that would change the analysis or figures discussed during the Technical Conference.

Within three weeks of the date of this notice, interested parties may file their specific questions and comments on the FY 2007 OFA cost submissions with the Commission under Docket No. AD08-1-004. Once filed, the Commission will forward the questions and comments to the OFAs for response.

Anyone with questions pertaining to the technical conference or this notice should contact Fannie Kingsberry at (202) 502-6108 (via e-mail at fannie.kingsberry@ferc.gov), or Norman Richardson at (202) 502-6219 (via e-mail at norman.richardson@ferc.gov).

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2007-0126; FRL-8551-7]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Petroleum Refineries (Renewal), EPA ICR Number 1692.06, OMB Control Number 2060-0340

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before May 7, 2008.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2007-0126, to: (1) EPA online using <http://www.regulations.gov> (our

preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

María Malavé, Compliance Assessment and Media Programs Division (Mail Code 2223A), Office of Compliance, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-7027; fax number: (202) 564-0050; e-mail address: malave.maria@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On March 9, 2007 (72 FR 10735), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2007-0126, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential

Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NESHAP for Petroleum Refineries (Renewal).

ICR Numbers: EPA ICR Number 1692.06, OMB Control Number 2060-0340.

ICR Status: This ICR is scheduled to expire on April 30, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Petroleum Refineries, published at 40 CFR part 63, subpart CC, were proposed on July 15, 1994, and promulgated on August 18, 1995. These regulations apply to the following existing and new petroleum refining process units and emission points located at refineries that are major sources of hazardous air pollutants (HAPs): Miscellaneous process vents, storage vessels, wastewater streams and treatment operations, equipment leaks, gasoline loading racks, and marine vessel loading operations. These regulations also apply to storage vessels and equipment leaks associated with bulk gasoline terminals or pipeline breakout stations that are related to an affected petroleum refinery. New facilities include those that commenced construction or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 63, subpart CC.

In general, all NESHAP standards require initial notifications, performance tests, and periodic reports. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all

sources subject to NESHAP. In addition, respondents are required to comply with the recordkeeping and reporting requirements contained in the following rules: either 40 CFR part 61, subpart VV or 40 CFR part 63, subpart H for equipment leaks (which includes an initial report and semiannual summaries of leak detection and repair); 40 CFR part 61, subpart FF for wastewater operations; portions of 40 CFR part 63, subpart R for gasoline loading racks; and 40 CFR part 63, subpart Y for marine tank vessel loading operations.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 320 (rounded) hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Petroleum refineries that are major sources of HAP emissions

Estimated Number of Respondents: 134

Frequency of Response: Annual, semiannual, on occasion, and quarterly
Estimated Total Annual Hour Burden: 411,889 hours

Estimated Total Annual Costs: There are \$37,026,877 in labor costs and no annualized capital/startup or O&M costs

Changes in the Estimates: The increase of 1,835 hours in labor burden to industry compared to the most recently approved ICR is due to various revisions and refinements to the

calculation of burden hours for ongoing recordkeeping and reporting as applied to the existing respondents.

The revisions and refinements made to the calculation of burden hours also caused an increase in labor burden cost to the regulatory agencies when compared to the figures in the most recently approved ICR.

Dated: March 31, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.
