

sources subject to NESHAP. In addition, respondents are required to comply with the recordkeeping and reporting requirements contained in the following rules: either 40 CFR part 61, subpart VV or 40 CFR part 63, subpart H for equipment leaks (which includes an initial report and semiannual summaries of leak detection and repair); 40 CFR part 61, subpart FF for wastewater operations; portions of 40 CFR part 63, subpart R for gasoline loading racks; and 40 CFR part 63, subpart Y for marine tank vessel loading operations.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the United States Environmental Protection Agency (EPA) regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 320 (rounded) hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Petroleum refineries that are major sources of HAP emissions

Estimated Number of Respondents:
134

Frequency of Response: Annual, semiannual, on occasion, and quarterly
Estimated Total Annual Hour Burden:
411,889 hours

Estimated Total Annual Costs: There are \$37,026,877 in labor costs and no annualized capital/startup or O&M costs

Changes in the Estimates: The increase of 1,835 hours in labor burden to industry compared to the most recently approved ICR is due to various revisions and refinements to the

calculation of burden hours for ongoing recordkeeping and reporting as applied to the existing respondents.

The revisions and refinements made to the calculation of burden hours also caused an increase in labor burden cost to the regulatory agencies when compared to the figures in the most recently approved ICR.

Dated: March 31, 2008.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Solvent Extraction for Vegetable Oil Production (Renewal), EPA ICR Number 1947.04, OMB Control Number 2060-0471

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before May 7, 2008.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2007-0059, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to regulations.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Learia Williams, Compliance Assessment and Media Programs

Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On March 9, 2007 (72 FR 10735), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2007-0059, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: NESHAP for Solvent Extraction for Vegetable Oil Production (Renewal).

ICR Numbers: EPA ICR Number 1947.04, OMB Control Number 2060-0471.

ICR Status: This ICR is scheduled to expire on July 31, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not

conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Solvent Extraction for Vegetable Oil Production were proposed on May 26, 2000 (65 FR 34252), and promulgated on April 21, 2001.

These standards apply to any existing, reconstructed, or new vegetable oil production process, which are defined as a group of continuous process equipment used to remove oil from oilseeds through direct contact with an organic solvent such as n-hexane. The term "oilseed" refers to the following agricultural products: corn germ, cottonseed, flax, peanut, rapeseed (source of canola oil), safflower, soybean, and sunflower. A vegetable oil production process is only subject to the regulation if it is a major source of hazardous air pollutant (HAP) emissions, or is collocated with other sources that are individually or collectively a major source of HAP emissions.

Notification reports are required upon the construction, reconstruction, or modification of any vegetable oil production processor. Also required is one-time-only initial notification for existing, new and reconstructed sources, and notification of an actual startup date. Annual compliance reports are required, along with a deviation report, an immediate startup, shutdown, and malfunction (SSM) report, and a periodic SSM report. Affected entities must retain reports and records for five years.

Owners or operators of solvent extraction for vegetable oil production facilities subject to the rule must maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart GGGG, as authorized in section

112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 185 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Solvent extraction for vegetable oil production.

Estimated Number of Respondents: 101.

Frequency of Response: Annually, initially and occasionally.

Estimated Total Annual Hour Burden: 39,385.

Estimated Total Annual Cost: \$2,512,947 in labor costs. There are no annualized capital/startup and annual O&M costs associated with this ICR.

Changes in the Estimates: There is no change in the labor hours or cost in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR and there is no change in burden to industry.

Dated: March 31, 2008.

Sara Hisel-McCoy,

Director, Collection Strategies Division.

Clean Air Act Operating Permit Program; Petition for Objection to State Operating Permit for Kerr-McGee Gathering, LLC—Frederick Compressor Station

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final action.

SUMMARY: This document announces that the EPA Administrator has responded to a citizen petition asking EPA to object to an operating permit issued by the Colorado Department of Public Health and Environment (CDPHE). Specifically, the Administrator has granted the January 3, 2007 petition, submitted by Rocky Mountain Clean Air Action (Petitioner), to object to January 1, 2007 operating permit issued to Kerr-McGee Gathering to operate the Frederick Natural Gas Compressor Station (Kerr-McGee-Frederick Station).

Pursuant to section 505(b)(2) of the Clean Air Act (Act), Petitioners may seek judicial review of those portions of the petitions, which EPA denied in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days from the date this notice appears in the **Federal Register**, pursuant to section 307 of the Act.

ADDRESSES: You may review copies of the final Order, the petition, and other supporting information at the EPA Region 8, 1595 Wynkoop Street, Denver, Colorado 80202-1129.

EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the copies of the final order, the petition, and other supporting information. You may view the hard copies Monday through Friday, 8 a.m. to 4 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. Additionally, the final order for Kerr-McGee-Frederick Station is available electronically at: http://www.epa.gov/region7/programs/artd/air/title5/petitiondb/petitions/kerrmcgee_frederick_decision2007.pdf.
