**21 CFR Part 558**

**New Animal Drugs for Use in Animal Feed; Zilpaterol; Technical Amendment**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Final rule; technical amendment.

**SUMMARY:** The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Intervet Inc. The NADA provides for use of approved, single-ingredient Type A medicated articles containing zilpaterol hydrochloride, monensin USP, tylosin phosphate, and melengestrol acetate in four-way combination Type B and Type C medicated feeds for heifers fed in confinement for slaughter.

**DATES:** This rule is effective April 8, 2008.

**FOR FURTHER INFORMATION CONTACT:**

Gerald L. Rushin, Center for Veterinary Medicine (HFV–126), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 240–276–8103, e-mail: *gerald.rushin@fda.hhs.gov*.

**SUPPLEMENTARY INFORMATION:**

Intervet Inc., P.O. Box 318, 29160 Intervet Lane, Millsboro, DE 19966, filed NADA 141–280 that provides for use of ZILMAX (zilpaterol hydrochloride), and RUMENSIN (monensin USP), TYLAN (tylosin phosphate), and MGA (melengestrol acetate) Type A medicated articles to make dry and liquid four-way combination Type B and Type C medicated feeds used for increased rate of weight gain, improved feed efficiency, and increased carcass leanness; for prevention and control of coccidiosis due to *Eimeria bovis* and *E. zuernii*; and for reduction of incidence of liver abscesses caused by *Fusobacterium necrophorum* and *Arcanobacterium (Actinomyces) pyogenes*; and suppression of estrus (heat) in heifers fed in confinement for slaughter during the last 20 to 40 days on feed. The NADA is approved as of February 29, 2008, and the regulations in 21 CFR 558.342 and 558.665 are amended to reflect the approval.

In addition, FDA has noticed that the codified indications for use of tylosin in combination with melengestrol and lasalocid are not consistent with the conditions of use approved for an

abbreviated new animal drug application (71 FR 39204, July 12, 2006). At this time, the indications for use are revised to include the associated pathogens. This action is being taken to improve the accuracy of the regulations.

In accordance with the freedom of information provisions of 21 CFR part 20 and 21 CFR 514.11(e)(2)(ii), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Division of Dockets Management (HFA–305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852, between 9 a.m. and 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.33(a)(2) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This rule does not meet the definition of “rule” in 5 U.S.C. 804(3)(A) because it is a rule of “particular applicability.” Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801–808.

#### 33 CFR Part 117

[USCG-2008-0037]

#### **Drawbridge Operation Regulation; Upper Mississippi River, Rock Island, IL, Quad City Marathon**

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice of temporary deviation from regulations.

**SUMMARY:** The Commander, Eighth Coast Guard District has issued a temporary deviation from the regulation governing the operations of the Rock Island Railroad and Highway Drawbridge across the Upper Mississippi River, Mile 482.9, Rock Island, Illinois. The deviation is necessary as the drawbridge is part of the annual route for the Quad City Marathon. This deviation allows the bridge to remain in the closed-to-navigation position during the event.

**DATES:** This deviation is effective from 7:30 a.m. until 11:30 a.m., September 28, 2008.

**ADDRESSES:** Documents indicated in this preamble as being available in the docket are part of docket USCG-2008-0037 and are available online at [www.regulations.gov](http://www.regulations.gov). They are also available for inspection or copying at two locations: The Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays, and the Robert A. Young Federal Building, Room 2.107F, 1222 Spruce Street, St. Louis, MO 63103-2832, between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Roger K. Wiebusch, Bridge Administrator, (314) 269-2378.

**SUPPLEMENTARY INFORMATION:** The U.S. Army Rock Island Arsenal requested a temporary deviation for the Rock Island Railroad and Highway Drawbridge, Mile 482.9, at Rock Island, Illinois, across the Upper Mississippi to remain in the closed-to-navigation position as the drawbridge is part of the Annual Quad

City Marathon route. The Rock Island Railroad and Highway Drawbridge currently operates in accordance with 33 CFR 117.5, which states the general requirement that drawbridges shall open promptly and fully for the passage of vessels when a request to open is given in accordance with the subpart. In order to facilitate the annual event, the drawbridge must be kept in the closed-to-navigation position. This deviation allows the bridge to remain in the closed-to-navigation position for four hours from 7:30 a.m. until 11:30 a.m., September 28, 2008.

There are no alternate routes for vessels transiting this section of the Upper Mississippi River.

The Rock Island Railroad and Highway Drawbridge, in the closed-to-navigation position, provides a vertical clearance of 23.8 feet above normal pool. Navigation on the waterway consists primarily of commercial tows and recreational watercraft. This temporary deviation has been coordinated with waterway users. No objections were received.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 20, 2008.
