[Project No. 659-014]

#### Crisp County Power Commission; Notice of Availability of Environmental Assessment

April 2, 2008.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 F.R. 47897), the Office of Energy Projects has reviewed the application for a New Major License for the Lake Blackshear Hydroelectric Project.

The project is located in Southwest Georgia in Worth, Lee, Sumter, Dooly, and Crisp Counties. The project does

not occupy any federal lands. Staff has prepared an Environmental Assessment (EA) for the project.

The EA contains staff's analysis of the potential environmental effects of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
