

training consistent with at-sea operating conditions.

Facilities at the OLF would include an 8,000-foot runway, aircraft traffic control tower, and other support buildings. The Navy also proposes to establish Class D airspace around the OLF. Property and property interests for construction of the facilities, airfield safety zones, and projected high-noise zones would need to be acquired through purchase, lease, or acquisition of restrictive use or conservation easements.

The EIS will address environmental consequences associated with construction of the airfield, associated infrastructure and support facilities, and aircraft operations. In addition, the EIS will assess socioeconomic consequences associated with acquisition of property and property interests for the OLF and any relocation of residences within the proposed airfield safety and projected high-noise zones.

The Navy has worked with the leadership in the State of North Carolina and Commonwealth of Virginia to identify a range of reasonable site location alternatives for the OLF. For purposes of analysis, an estimated 25,000 to 30,000-acre area is being considered for each site location alternative. Additional alternative site locations may be identified during the scoping process. The five site location alternatives identified to date are: (1) Cabin Point Site, located in Surry, Prince George, and Sussex counties, Virginia; (2) Dory Site, located in Southampton and Sussex counties, Virginia; (3) Mason Site, located in Sussex and Southampton counties, Virginia; (4) Sandbanks Site, located in Gates and Hertford counties, North Carolina; and (5) Hale's Lake Site, located in Camden and Currituck counties, North Carolina.

The Navy has and will continue to work with the leadership from the State of North Carolina and the Commonwealth of Virginia as well as local communities to explore all possible economic benefits to the community to offset the potential impacts from the OLF. During the scoping process, the Navy will encourage and solicit input on other potential economic benefit proposals.

The Navy intends to analyze potential environmental consequences of the construction and operation of the OLF on the natural environment, including, but not limited to, air quality, plant and animal habitats, and water resources such as streams and wetlands. It will also evaluate potential consequences to the built environment, including land use patterns, transportation, housing,

and regional economy. Further, the Navy will prepare analyses of projected operations on existing airspace and of aircraft noise exposure levels on the ambient noise environment.

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before May 9, 2008.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Education Desk Officer, Office of Management and Budget, 725 17th Street, NW., Room 10222, Washington, DC 20503. Commenters are encouraged to submit responses electronically by e-mail to oir_submission@omb.eop.gov or via fax to (202) 395-6974. Commenters should include the following subject line in their response "Comment: [insert OMB number], [insert abbreviated collection name, e.g., "Upward Bound Evaluation"]". Persons submitting comments electronically should not submit paper copies.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its

statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Report for the Jacob K. Javits Fellowship Program.

Frequency: Annually.

Affected Public:

Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 190.

Burden Hours: 570.

Abstract: This information collection provides the U.S. Department of Education with information needed to determine if fellows have made substantial progress toward meeting the program's objectives and allows program staff to monitor and evaluate time-to-degree completion and the graduation rate. The Congress has mandated (through the Government Performance and Results Act of 1993) that the U.S. Department of Education provide documentation about the progress being made by the program. Program staff have made minor adjustments to the report to improve the clarity of the document, and to ensure more effective data collection and evaluation of program performance. However, the current burden estimate of three hours per response remains the same, pending feedback from respondents after the approved Annual Student Activities Report is extended and implemented.
