

and that have significant ecological value. Conservation projects should advance the goals, objectives or implementation of federal, regional, state or local coastal management plans.

The CELCP was created by Public Law 107-77 and codified at 16 U.S.C. 1456d. NOAA issued final guidelines for the program in June 2003. Since the program's creation, CELCP has administered more than 150 grants for land conservation projects in 26 out of 34 eligible coastal states and territories and has run two national funding competitions under the guidelines.

Based on its experience implementing this program, NOAA plans to update the CELCP program guidelines to clarify certain provisions and consider other changes. The revisions will not change the CELCP process, but will clarify certain provisions and consider other improvements. The current Final Guidelines for the CELCP can be found on the Internet at <http://www.coastalmanagement.noaa.gov/land/media/CELCPfinalo2Guidelines.pdf> or can be requested either by phone at 301-713-3155 ext. 119, or by e-mail to Roxanne.Thomas@noaa.gov. Any proposed changes to the CELCP guidelines would be published in the **Federal Register**, with an opportunity for public comment, following compliance with any relevant statutes and executive orders.
