

3. Department of Energy, Agency-wide (N1-434-08-2, 2 items, 1 temporary item). Research and professional files of researchers who have held a range of positions or have been a recognized expert in cross-disciplinary work. Proposed for permanent retention are files of researchers who have achieved national or international prominence in their career.

4. Department of Homeland Security, Office for Civil Rights and Civil Liberties (N1-563-07-6, 6 items, 4 temporary items). Records tracking allegations of racial, ethnic, and religious profiling by employees and officials of the agency. Proposed for permanent retention are records associated with significant cases.

5. Department of the Interior, National Park Service (N1-79-07-2, 15 items, 7 temporary items). Records related to the implementation and administration of the Native American Graves Protection and Repatriation Act national program. Proposed for permanent retention are case files, advisory committee records, awarded grant files, program records, and associated indexes.

6. Department of the Navy, Agency-wide (N1-NU-07-10, 1 item, 1 temporary item). Personnel rosters, listings, cards, indexes and similar records maintained by preparing units.

7. Department of State, Foreign Service Institute (N1-59-08-7, 8 items, 8 temporary items). Records relating to registration for internal and external training, including course information, management reports, course schedules, and travel records.

8. Department of the Treasury, Internal Revenue Service (N1-58-08-10, 3 items, 3 temporary items). Master file, outputs, and system documentation for the Enterprise Data Access Strategy—Integrated Production Model, which consists of data used in modernization projects.

9. Federal Communications Commission, Office of the Inspector General (N1-173-07-2, 8 items, 5 temporary items). Non-significant investigative files, allegations that do not relate to a specific investigation, audits, strategic plans, and general correspondence. Proposed for permanent retention are significant investigative files, semi-annual reports, and annual audit plans.

10. National Archives and Records Administration, Office of Records Services—Washington, DC (N1-64-08-2, 5 items, 5 temporary items). Data,

audit logs, user profiles, and system documentation of the Accessions Management Information System used to track information about accessions of electronic records.

11. National Archives and Records Administration, Office of Records Services—Washington, DC (N1-64-08-03, 5 items, 5 temporary items). Data, audit logs, user profiles, and system documentation used in the verification of format and structure of data submitted by agencies for accession through the Archival Electronic Records Inspection and Control System.

12. National Archives and Records Administration, Office of Records Services—Washington, DC (N1-64-08-4, 4 items, 4 temporary items). System usage and performance reports, system audit logs, user profiles, and system documentation associated with the Access to Archival Databases System, which provides web access to selected accessioned electronic records, including databases, images and texts.

13. National Archives and Records Administration, Office of Records Services—Washington, DC (N1-64-08-5, 4 items, 4 temporary items). Data files, system audit logs, custom developed source code, and system documentation associated with the Archival Processing System, which maintains metadata related to the agency's holdings of electronic records such as recording characteristics, preservation master and backup copy management, technical file specifications, tape location management, media recopy and refresh scheduling, and reference requests.

14. Peace Corps, Office of Management (N1-490-08-1, 1 item, 1 temporary item). Master file of an electronic information system used to record volunteers' foreign language test scores.

15. United States Information Agency, Broadcasting Service (N1-306-97-2, 28 items, 16 temporary items). Subject files that are duplicative or are lacking historical significance, travel vouchers, and requests for information. Proposed for permanent retention are records of subject, country, program, and other files that document programs and policies. The proposed disposition instructions are limited to paper records.

Dated: April 7, 2008.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* 10 CFR Part 32—Specific Domestic Licenses to Manufacture or Transfer Certain Items Containing Byproduct Material.

2. *Current OMB approval number:* 3150-0001.

3. *How often the collection is required:* There is a one-time submittal of information to receive a license. Renewal applications are submitted every 10 years. In addition, recordkeeping must be performed on an ongoing basis, and reporting of transfer of byproduct material must be reported every calendar year, and in some cases, every calendar quarter.

4. *Who is required or asked to report:* All specific licensees who manufacture or initially transfer items containing byproduct material for sale or distribution to general licensees or persons exempt from licensing.

5. *The number of annual respondents:* 474 (158 NRC licensees and 316 Agreement State licensees).

6. *An estimate of the number of responses annually:* 474 (158 for NRC licensees and 316 for Agreement State licensees).

7. *The number of hours needed annually to complete the requirement or request:* 98,477 (29,900 hours for NRC licensees [233 hours reporting, or an average of 0.45 hour per response + 29,667 hours recordkeeping, or 86 hours per record keeper] and 68,577 hours for Agreement State licensees [339 hours reporting, or an average of 0.5 hours per response + 68,238 hours recordkeeping, or an average of 114 hours per record keeper]).

8. *Abstract:* 10 CFR Part 32 establishes requirements for specific licenses for the introduction of byproduct material into products or materials and transfer of the

products or materials to general licensees or persons exempt from licensing. It also prescribes requirements governing holders of the specific licenses. Some of the requirements are for information which must be submitted in an application for a specific license, records which must be kept, reports which must be submitted, and information which must be forwarded to general licensees and persons exempt from licensing. In addition, 10 CFR Part 32 prescribes requirements for the issuance of certificates of registration (concerning radiation safety information about a product) to manufacturers or initial transferors of sealed sources and devices. Submission or retention of the information is mandatory for persons subject to the 10 CFR Part 32 requirements. The information is used by NRC to make licensing and other regulatory determinations concerning the use of radioactive byproduct material in products and devices.

Submit, by June 13, 2008, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, Maryland 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Margaret A. Janney (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-7245, or by e-mail to [INFOCOLLECTS@NRC.GOV](mailto:INFOCOLLECTS@NRC.GOV).

Dated at Rockville, Maryland this 7th day of April 2008.

For the Nuclear Regulatory Commission.

**Gregory Trussell,**

*Acting NRC Clearance Officer, Office of Information Services.*

## **NUCLEAR REGULATORY COMMISSION**

**[Docket No. 50-150]**

### **Ohio State University Research Reactor; Notice of Issuance of Environmental Assessment and Finding of No Significant Impact**

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of a renewed Facility License No. R-75, to be held by Ohio State University (OSU or the licensee), which would authorize continued operation of the Ohio State University Research Reactor (OSURR), located in Columbus, Franklin County, Ohio. Therefore, pursuant to 10 CFR 51.21, the NRC is issuing an Environmental Assessment and Finding of No Significant Impact.

#### **Description of Proposed Action**

The proposed action is approval of the licensee's application for renewal of Facility License No. R-75 for a period of 20 years from the date of issuance of the renewed license. The proposed action is in accordance with the licensee's application dated December 15, 1999, as supplemented on August 21, 2002, August 18, 2005, July 26, 2006, May 22, 2007, May 31, 2007, September 4, and September 28, 2007; and February 29, 2008.

The OSURR is located approximately 1.5 miles (2.4 km) west of the main campus on land owned by OSU and is a part of the Ohio State University Research Center. The site comprises the reactor building and a small area immediately surrounding it, bounded by a chain-link fence. The nearest permanent residences are located approximately 0.3 miles (0.5 km) to the west and approximately 0.3 miles (0.5 km) to the south. There are no nearby industrial, transportation, or military facilities that could pose a threat to the OSURR.

The OSURR is a pool-type, light water moderated and cooled research reactor licensed to operate at a steady-state power level of 500 kilowatts thermal power (kW(t)). A detailed description of the reactor can be found in the OSURR Safety Analysis Report (SAR). The major modifications to the Facility License were conversion from high enriched fuel to low enriched fuel in 1988 and a

licensed power increase from 10 kW(t) to 500 kW(t) in November 1990.

The licensee has not requested any changes to the facility design or operating conditions as part of the renewal request. The proposed action will not significantly increase the probability or consequences of accidents. No changes are being made in the types of effluents that may be released off site. There is no significant increase in occupational or public radiation exposure. Therefore, license renewal should not change the environmental impact of facility operation.

#### **Summary of the Environmental Assessment**

The NRC staff reviewed the licensee's application which included an Environmental Report. To document its review, the NRC staff has prepared an environmental assessment (EA) which discusses the OSURR site and facility; radiological impacts of gaseous, liquid, and solid effluents; environmental and personnel radiation monitoring; radiation dose estimates for the maximum hypothetical accident (MHA); impacts of the "no action" alternative to the proposed action; alternative use of resources; considerations related to the National Environmental Policy Act (NEPA); and presents the radiological and non-radiological environmental impacts of the proposed action.

#### **Finding of No Significant Impact**

On the basis of the environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated December 15, 1999 (ML993610185), as supplemented by letters dated August 21, 2002 (ML022380431), August 18, 2005 (ML052350564); July 26, 2006 (ML062090072); May 22, 2007 (ML071430417); May 31, 2007 (ML071550098); September 4, 2007 (ML072490367); September 28, 2007 (ML072750038); and February 29, 2008 (ML080650352). Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the NRC
