DOT's Office of Inspector General recommended, in its audit report, entitled "Actions Needed to Minimize Long, On-Board Flight Delays," issued on September 25, 2007, that the Secretary of Transportation establish a national task force of airlines, airports, and the Federal Aviation Administration (FAA) to coordinate and develop contingency plans to deal with lengthy delays, such as working with carriers and airports to share facilities and make gates available in an emergency. To effectuate this recommendation, on January 3, 2008, the Department, consistent with the requirements of the FACA, established the National Task Force to Develop Model Contingency Plans to Deal with Lengthy Airline On-Board Ground Delays. The first meeting of the Task Force took place on February 26, 2008.

The agenda topics for the April 29, 2008, meeting will include the following: (1) A presentation by FAA's Air Traffic Control on its perspective on air traffic holds and ground delays and uncertainties in the system; (2) a presentation on the regional airline perspective of tarmac delays; (3) one or

more presentations on recent tarmac delay events and efforts to avoid them; (4) a briefing by the Passenger Needs Working Group, the working group that studied the common needs of significantly delayed passengers on aircraft and passengers who returned to the terminal after disembarking from such aircraft; (5) a briefing by the Delays Causes Working Group, the working group that examined the possible causes of lengthy tarmac delays; and (6) a discussion of whether additional working groups should be established to achieve the objectives of the Task Force and if so, what the purpose of these working groups should be.
