Amendment to the Incidental Take Permit for the San Bruno Mountain Habitat Conservation Plan in San Mateo County, CA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and receipt of application.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce that the County of San Mateo and the City of Brisbane, acting on the behalf of the County of San Mateo and Cities of Brisbane, Daly City, and South San Francisco (Applicants or Permittees), have applied for an amendment to an incidental take permit under the Federal Endangered Species Act of 1973, as amended (Act). We are considering the issuance of an amended permit to the Applicants that would add the authorization for take of the federally endangered callippe silverspot butterfly (*Speyeria callippe callippe*) and the federally threatened bay checkerspot butterfly (*Ephydra editha bayensis*) (bay checkerspot) incidental to the Applicant's activities outlined in their proposed amendments to the 1982 San Bruno Mountain Habitat Conservation Plan (HCP) in San Mateo County, California. The HCP amendments would adjust the boundaries of Conserved Habitat within the 228-acre Northeast Ridge (Administrative Parcel 1-07) and provide supplemental HCP funding provisions that would allow additional habitat management and monitoring activities to occur on the approximately 2,828 acres of habitat conserved and managed under the HCP on San Bruno Mountain.

We request comments from the public on the permit application and an Environmental Assessment. The permit application includes the *Biological Study and Analysis of Conserved Habitat for Amendments to the Habitat Conservation Plan for San Bruno Mountain and Incidental Take Permit PRT 2-9818* (Study). The Study describes the proposed changes to the 1982 HCP as it was last amended in 1989, and the measures that the Applicants would undertake to minimize and mitigate take of the covered species.

DATES: We must receive your written comments on or before June 16, 2008.
