

Constructed Export Price Sales:

• Generally, a U.S. sale is classified as a constructed export price sale when the first sale to an unaffiliated customer occurs after importation. However, if the first sale to the unaffiliated customer is made by a person in the United States affiliated with the foreign exporter, constructed export price applies even if the sale occurs prior to importation.

• Please include any sales exported by your company directly to the United States;

• Please include any sales exported by your company to a third-country market economy reseller where you had knowledge that the merchandise was destined to be resold to the United States.

• If you are a producer of subject merchandise, please include any sales manufactured by your company that were subsequently exported by an affiliated exporter to the United States.

• Please do not include any sales of subject merchandise manufactured in Hong Kong in your figures.

Further Manufactured:

• Sales of further manufactured or assembled (including re-packaged) merchandise is merchandise that undergoes further manufacture or assembly in the United States before being sold to the first unaffiliated customer.

• Further manufacture or assembly costs include amounts incurred for direct materials, labor and overhead, plus amounts for general and administrative expense, interest expense, and additional packing expense incurred in the country of further manufacture, as well as all costs involved in moving the product from the U.S. port of entry to the further manufacturer.

SUPPLEMENTARY INFORMATION:**I. Abstract**

This is a request for renewal of a generic clearance for voluntary customer surveys to be conducted by NOAA program offices, and is submitted following the guidelines contained in the OMB Resource Manual for Customer Surveys. In accordance with Executive Order 12862, the National Performance Review, and good management practices, NOAA offices seek approval to continue to gather customer feedback on services and/or products, which can be used in planning for service/product modification and prioritization.

Under this generic clearance, individual offices would use approved questionnaires and develop new questionnaires, as needed, by selecting subsets of the approved set of collection questions and tailoring those specific questions to be meaningful for their particular programs. These proposed questionnaires would then be submitted to OMB using a fast-track request for approval process. *The generic clearance will not be used to survey any bodies NOAA regulates unless precautions are taken to ensure that the respondents believe that they are not under any risk for not responding or for the contents of their responses; e.g., in no survey to such a population will the names and addresses of respondents be required. Currently there are no such surveys being submitted for approval.*

II. Method of Collection

Information is collected via e-mail or interactive Web sites.

III. Data

OMB Number: 0648-0342.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households; not-for-profit institutions; business or other for-profit organizations; and state, local or tribal governments.

Estimated Number of Respondents: 20,800.

Estimated Time per Response: 5 minutes.

Estimated Total Annual Burden Hours: 1,800.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: April 10, 2008.
