

TABLE 2—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION—Continued

EPA Company no.	Company Name and Address
059623	California Dept. of Food & Agriculture O. Office of Pesticide Consultation & analysis, 1220 N. St., Rm. 444, Sacramento, CA 95814.
059639	Valent U.S.A. Corp., Agent For: Valent U.S.A. Corp., 1101 14th St., NW, Suite 1050, Washington, DC 20005.
060061	Kop-Coat, Inc., 436 Seventh Ave., Pittsburgh, PA 15219.
060063	Sipcam Agro USA, Inc., 300 Colonial Parkway, Suite 230, Roswell, GA 30076.
061483	KMG-Bernuth, Inc., 10611 Harwin Dr., Houston, TX 77036-1534.
062719	Dow Agrosciences LLC, 9330 Zionsville Rd., 308/ 2E, Indianapolis, IN 46268-1054.
066222	Makhteshim-Agan of North America Inc., 4515 Falls of Neuse Rd., Suite 300, Raleigh, NC 27609.
066330	Arysta Lifescience North America Corp., 15401 Weston Parkway, Suite 150, Cary, NC 27513.
067619	Clorox Professional Products Co., P.O. Box 493, Pleasanton, CA 94566-0803.
067751	OMG Meadowfoam Oil Seed Growers, P.O. Box 4306, Salem, OR 97302.
067760	Cheminova Inc., 1700 Route 23 - Suite 300, Wayne, NJ 07470.
070506	United Phosphorus, Inc., 630 Freedom Business Center, Suite 402, King Of Prussia, PA 19406.
071654	E.I. Dupont De Nemours & Co., Dupont Chemical Solutions Enterprise, P.O. Box 80402, Wilmington, DE 19880-0402.
071711	Nichino America, Inc., 4550 New Linden Hill Rd., Suite 501, Wilmington, DE 19808.

TABLE 2—REGISTRANTS REQUESTING VOLUNTARY CANCELLATION—Continued

EPA Company no.	Company Name and Address
072639	Pyxis Regulatory Consulting, Inc., Agent For: LT Biosyn, Inc., 4110 136th St., NW., Gig Harbor, WA 98332.
080225	Gowan Co., Agent For: Isilya Group Ltd., P.O. Box 5569, Yuma, AZ 85364.

III. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, the Administrator may approve such a request.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before October 14, 2008. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

V. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4). Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a Data Call-In. In all cases, product-

specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold, or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product. Exception to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in a special review action, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

List of Subjects

Environmental protection, Pesticides and pests.

Dated: April 2, 2008.

Oscar Morales

Director, Information Technology and Resources Management Division, Office of Pesticide Programs.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2005-0302; FRL-8359-8]

Ethylene Oxide; Reregistration Eligibility Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decision (RED) for the pesticide ethylene oxide (ETO). The Agency's risk assessments and other related documents also are available in the ETO Docket. ETO is used to sterilize medical or laboratory equipment, pharmaceuticals, and aseptic packaging, or to reduce microbial load on musical instruments, cosmetics, whole and ground spices or other seasoning materials and artifacts, archival material or library objects. In North Carolina, ETO is also used to fumigate beehive equipment (e.g., woodenware boxes and frames) and wax or plastic combs that are contaminated with the bacteria *Paenibacillus larvae*, the cause of American Foulbrood Disease. EPA has

reviewed ETO through the public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

FOR FURTHER INFORMATION CONTACT:

Susan Bartow, Special Review and Reregistration Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 603-0065; fax number: (703) 308-8005; e-mail address: bartow.susan@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental and human health advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2005-0203. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr>.

II. Background

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide

Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA has completed a RED for the pesticide, ETO under section 4(g)(2)(A) of FIFRA. ETO is used to sterilize medical or laboratory equipment, pharmaceuticals, and aseptic packaging, or to reduce microbial load on musical instruments, cosmetics, whole and ground spices or other seasoning materials and artifacts, archival material or library objects. In North Carolina, ETO is also used to fumigate beehive equipment (e.g., woodenware boxes and frames) and wax or plastic combs that are contaminated with the bacteria.

Paenibacillus larvae, the cause of American Foulbrood Disease. EPA has determined that the database to support reregistration is substantially complete and that products containing ETO are eligible for reregistration provided the risks are mitigated in the manner described in the RED. Upon submission of any required product specific data under section 4(g)(2)(B) of FIFRA and any necessary changes to the registration and labeling (either to address concerns identified in the RED or as a result of product specific data), EPA will make a final reregistration decision under section 4(g)(2)(C) of FIFRA for products containing ETO.

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004, (69 FR 26819) (FRL-7357-9) explains that in conducting these programs, EPA is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of issues, and degree of public concern associated with each pesticide. Due to its uses, risks, and other factors, ETO was reviewed through the full 6-Phase public participation process. Through this process, EPA worked extensively with stakeholders and the public to reach the regulatory decisions for ETO.

The reregistration program is being conducted under congressionally mandated time frames, and EPA recognizes the need both to make timely decisions and to involve the public. During the reregistration process, the Agency has provided ample opportunity for public comment and stakeholder input through a full 6-Phase public participation process. The Agency therefore is issuing the ETO RED without a comment period.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA, as amended, directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Prometon; Reregistration Eligibility Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's Reregistration Eligibility Decision (RED) for the pesticide prometon. The Agency's risk assessments and other related documents also are available in the prometon docket. Prometon is an herbicide used in industrial sites and under paved surfaces. EPA has reviewed prometon through the public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.
