AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice of availability.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969 (as amended), the U.S. Army Corps of Engineers, Los Angeles District (Corps) Regulatory Branch, in coordination with the San Diego County Water Authority (Water Authority), has completed a Final Environmental Impact Report/ Environmental Impact Statement (EIR/ EIS) for the Carryover Storage and San Vicente Dam Raise Project (CSP). Four alternatives were co-equally analyzed in the EIR/EIS, including Alternative 1 (100,000 acre-feet of carryover storage at San Vicente), Alternative 2 (100,000 acre-feet of carryover storage at Moosa Canyon), Alternative 3 (50,000 acre-feet

of carryover storage at San Vicente and 50,000 acre-feet of carryover storage at Moosa Canyon) and the No Action Alternative, as required by NEPA. As the project proponent and applicant, the Water Authority selected Alternative 1 as its preferred alternative. The proposed CSP requires authorization pursuant to section 404 of the Clean Water Act for approximately 0.34 acre of fill placement in jurisdictional waters of the United States, including wetlands, to construct an expansion of the existing San Vicente Dam to store approximately 100,000 acre-feet of carryover storage water.
