**SUPPLEMENTARY INFORMATION:**

On December 31, 2007, notice was published in the **Federal Register** (72 FR 74274) that a request for a scientific research permit had been submitted by the above-named organization. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant is authorized to collect, receive, possess, import, and export marine mammal biological specimens (hard and soft parts) from pinnipeds (excluding walrus) and cetaceans to obtain information on population status

and distribution, stock structure, age distribution, mortality rates, productivity, feeding habits, and health that can be used for conservation and management purposes. Specimens may be imported and exported world-wide. The duration of the permit is five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: April 16, 2008.

**POLICY JUSTIFICATION****United Kingdom – Mine Resistant Ambush Protected (MRAP) Vehicles**

The Government of the United Kingdom has requested a possible sale of 157 Mine Resistant Ambush Protected (MRAP) Category I 4X4 Cougar vehicles, tools and test equipment, maintenance support, contractor technical and logistics personnel services, support equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$125 million.

The United Kingdom is a major political and economic power in NATO and a key democratic partner of the U.S. in ensuring peace and stability in this region and around the world.

The United Kingdom requests these capabilities to provide for the safety of its deployed troops in support of Global War on Terror (GWOT) operations. This program will ensure the United Kingdom can effectively operate in hazardous areas in a safe, survivable vehicle, and enhance the United Kingdom's interoperability with U.S. forces. The United Kingdom is a staunch supporter of the U.S. in Iraq and Afghanistan, and the GWOT. The United Kingdom's troops are deployed in support of IRAQI FREEDOM and ENDURING FREEDOM, where U.S. assets currently provide this proposed capability. By acquiring this capability, the United Kingdom will be able to provide the same level of protection for its own forces as that provided the United States forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region. The United Kingdom will have no difficulty absorbing these vehicles into its Armed Forces.

The principal contractor will be: Force Protection Industries, Inc., of Ladson, South Carolina. There are no known offset agreements proposed in connection with this potential sale.

The proposed sale requires the continued support of seven Field Service Representatives (FSRs), currently providing in theater maintenance support for the existing Mastiff vehicles. An additional eight FSRs will be added under UK-P-LTR, and the United Kingdom has requested one additional FSR under this proposed sale to support the additional vehicles until 31 July 2009.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

## Transmittal No. 08-33

**Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act**

**Annex  
Item No. vii**

**(vii) Sensitivity of Technology:**

**1. The Mine Resistant Ambush Protected (MRAP) Category I vehicle is an armored, multi-purpose combat vehicle Explosive Ordnance Disposal and intended to support mounted urban operations to include convoy security support and dismounted patrols. It is designed to increase crew survivability. The vehicle has a blast-resistant underbody designed to protect the crew from mine blasts, fragmentation, and direct fire weapons.**

**2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.**
