

The Notice of Application for this proposed project issued on March 13, 2008 identified the date for the filing of interventions as April 3, 2008. However, affected landowners and parties with environmental concerns may be granted late intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

The Commission reserves the right to require a further showing that neither

public nor private interests will be adversely affected by continued approvals of Las Vegas' issuance of securities or assumptions of liability.
