

Alan T. Waterman Award (20 hours per 50 respondents); 180 hours for the Vannevar Bush Award (15 hours per 12 respondents); and 300 hours for the Public Service Award (15 hours per 20 respondents).

*Frequency of Responses:* Annually.

*Comments:* Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: April 21, 2008.

**Suzanne H. Plimpton,**

## NATIONAL SCIENCE FOUNDATION

### Notice of the Availability of a Draft Programmatic Environmental Assessment

**AGENCY:** National Science Foundation.

**ACTION:** Notice of request for public comment on a Draft Programmatic Environmental Assessment (PEA) for the Ocean Observatories Initiative (OOI).

**SUMMARY:** The National Science Foundation (NSF) gives notice of the request for public comment on a Draft PEA for the OOI. The Division of Ocean Sciences in the Directorate for Geosciences (GEO/OCE) has prepared a Draft PEA for the OOI, a multi-million dollar Major Research Equipment and Facilities Construction effort intended to put moored and cable infrastructure in discrete locations in the coastal and global ocean. The Draft PEA is available for public comment for a 30 day period.

**DATES:** Comments must be submitted on or before May 16, 2008.

**ADDRESSES:** Copies of the Draft PEA are available upon request from: Dr. Shelby Walker, National Science Foundation, Division of Ocean Sciences, 4201 Wilson Blvd., Suite 725, Arlington, VA

22230; Telephone: (703) 292-8580. The Draft PEA is also available under Additional OCE Resources at the following Web site: <http://www.nsf.gov/div/index.sp?djv=ocE>.

**FOR FURTHER INFORMATION CONTACT:** Dr. Shelby Walker, National Science Foundation, Division of Ocean Sciences, 4201 Wilson Blvd., Suite 725, Arlington, VA 22230. Telephone: (703) 292-8580.

#### SUPPLEMENTARY INFORMATION:

Oceanographic research has long relied on research vessel cruises (expeditions) as the predominate means to make direct measurements of the ocean. Remote sensing (use of satellites) has greatly advanced abilities to measure ocean surface characteristics over extended periods of time. A major advancement for oceanographic research methods is the ability to make sustained, long-term, and adaptive measurements from the surface to the ocean bottom. "Ocean Observatories" are now being developed to further this goal. Building upon recent technology advances and lessons learned from prototype ocean observatories, NSF's Ocean Sciences Division (OCE) is proposing to fund the OOI, an interactive, globally distributed and integrated infrastructure that will be the backbone for the next generation of ocean sensors and resulting complex ocean studies presently unachievable. The OOI reflects a community-wide, national and international scientific planning effort and is a key NSF contribution to the broader effort to establish focused national ocean observatory capabilities through the Integrated Ocean Observing System (IOOS).

The OOI infrastructure would include cables, buoys, deployment platforms, moorings, junction boxes, electric power generation (solar, wind, fuel cell, and/or diesel), and two-way communications systems. This large-scale infrastructure would support sensors located at the sea surface, in the water column, and at or beneath the seafloor. The OOI would also support related elements, such as unified project management, data dissemination and archiving, modeling of oceanographic processes, and education and outreach activities essential to the long-term success of ocean science. It would include the first U.S. multi-node cabled observatory; fixed and relocatable coastal arrays coupled with mobile assets; and advanced buoys for interdisciplinary measurements, especially for data-limited areas of the Southern Ocean and other high-latitude locations.

The OOI design is based upon three main technical elements across global,

regional, and coastal scales. At the global and coastal scales, moorings would provide locally generated power to seafloor and platform instruments and sensors and use a satellite link to shore and the Internet. Up to four Global Scale Nodes (GSN) or buoy sites are proposed for ocean sensing in the Eastern Pacific and Atlantic oceans. The Regional-Scale Nodes (RSN) off the coast of Washington and Oregon would consist of seafloor observatories with various chemical, biological, and geological sensors linked with submarine cables to shore that provide power and Internet connectivity. Coastal-Scale Nodes (CSN) would be represented by the fixed Endurance Array, consisting of a combination of cabled nodes and stand-alone moorings, off the coast of Washington and Oregon, and the relocatable Pioneer Array off the coast of Massachusetts, consisting of a suite of stand-alone moorings. In addition, there would be an integration of mobile assets such as autonomous underwater vehicles (AUVs) and/or gliders with the GSN, RSN, and CSN observatories.

The NSF invites interested members of the public to provide written comments on this Draft PEA. Comments can be submitted to: Dr. Shelby Walker, National Science Foundation, Division of Ocean Sciences, 4201 Wilson Blvd., Suite 725, Arlington, VA 22230; Telephone: (703) 292-8580; or electronically at [PEA\\_comments@nsf.gov](mailto:PEA_comments@nsf.gov).

Dated: April 10, 2008.

**Shelby Walker,**

*Associate Program Director, Ocean Technology and Interdisciplinary Coordination, Division of Ocean Sciences, National Science Foundation.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 52-024]

### Entergy Operations, Inc.; Acceptance for Docketing of an Application for Combined License for Grand Gulf Unit 3

By letter dated February 27, 2008, as supplemented by letters dated April 9 and 11, 2008, Entergy Operations, Inc. (EOI), on behalf of itself and Entergy Mississippi, Inc., Entergy Louisiana, LLC, Entergy Gulf States Louisiana, LLC, and System Energy Resources, Inc., submitted an application to the U. S. Nuclear Regulatory Commission (NRC) for a combined license (COL) for one

economic simplified boiling water reactor (ESBWR) in accordance with the requirements contained in 10 CFR part 52, "Licenses, Certifications, and Approvals for Nuclear Power Plants." The application references an early site permit (ESP) granted to System Energy Resources, Inc. for the Grand Gulf ESP site. The reactor will be identified as Grand Gulf Unit 3 and located at the Grand Gulf Nuclear Station (GGNS) site in Claiborne County, Mississippi. A notice of receipt and availability of this application was previously published in the **Federal Register** (73 FR 14849 on March 19, 2008).

The NRC staff has determined that Entergy has submitted information in accordance with 10 CFR part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders," and 10 CFR part 52 that is acceptable for docketing. The docket number established for this COL application is 52-024.

The NRC staff will perform a detailed technical review of the COL application. Docketing of the COL application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. The Commission will conduct a hearing in accordance with Subpart L, "Informal Hearing Procedures for NRC Adjudications," of 10 CFR part 2 and will receive a report on the COL application from the Advisory Committee on Reactor Safeguards in accordance with 10 CFR 52.87, "Referral to the Advisory Committee on Reactor Safeguards (ACRS)." If the Commission finds that the COL application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that required notifications to other agencies and bodies have been made, the Commission will issue a COL, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

In accordance with 10 CFR part 51, the Commission will also prepare an environmental impact statement for the proposed action. Pursuant to 10 CFR 51.26, and as part of the environmental scoping process, the staff intends to hold a public scoping meeting. Detailed information regarding this meeting will be included in a future **Federal Register** notice.

Finally, the Commission will announce in a future **Federal Register** notice the opportunity to petition for leave to intervene in the hearing required for this application by 10 CFR 52.85.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, and will be accessible electronically through the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room link at the NRC Web site <http://www.nrc.gov/reading-rm/adams.html>. The application is also available at <http://www.nrc.gov/reactors/new-licensing/col.html>. Persons who do not have access to ADAMS or who encounter problems in accessing documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

Dated at Rockville, Maryland this 17th day of April 2008.

For the Nuclear Regulatory Commission.

**Eric R. Oesterle,**

Senior Project Manager, ESBWR/ABWR Projects Branch 1, Division of New Reactor Licensing, Office of New Reactors.

## NUCLEAR REGULATORY COMMISSION

### Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of the OMB review of information collection and solicitation of public comment.

**SUMMARY:** The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The NRC published a **Federal Register** Notice with a 60-day comment period on this information collection on January 14, 2008.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* NRC Form 64, "Travel Voucher" (Part 1); NRC Form 64A, "Travel Voucher" (Part 2); and NRC Form 64B, "Optional Travel Voucher" (Part 2).

3. *Current OMB approval number:* 3150-0192.

4. *The form number if applicable:* NRC Forms 64, 64A, and 64B.

5. *How often the collection is required:* On occasion.

6. *Who will be required or asked to report:* Contractors, consultants and invited NRC travelers who travel in the course of conducting business for the NRC.

7. *An estimate of the number of annual responses:* 100.

8. *The estimated number of annual respondents:* 100.

9. *An estimate of the total number of hours needed annually to complete the requirement or request:* 100 (1 hour per form).

10. *Abstract:* Consultants, contractors, and those invited by the NRC to travel (e.g., prospective employees) must file travel vouchers and trip reports in order to be reimbursed for their travel expenses. The information collected includes the name, address, social security number, and the amount to be reimbursed. Travel expenses that are reimbursed are confined to those expenses essential to the transaction of official business for an approved trip.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by May 27, 2008. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date.

Nathan J. Frey, Office of Information and Regulatory Affairs (3150-0192), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be e-mailed to [Nathan.J.Frey@omb.eop.gov](mailto:Nathan.J.Frey@omb.eop.gov) or submitted by telephone at (202) 395-7345.

The NRC Clearance Officer is Margaret A. Janney, (301) 415-7245.

Dated at Rockville, Maryland, this 18th day of April, 2008.
