Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted the above-referenced investigation on December 31, 2007, based on a complaint filed by INEOS Fluor Holdings Ltd., INEOS Fluor Ltd., and INEOS Fluor Americas L.L.C. (collectively "INEOS"). The complaint alleges violations of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain R-134a coolant (otherwise known as 1,1,1,2-tetrafluoroethane) by reason of infringement of various claims of United States Patent No. 5,744,658. The complaint named two respondents, Sinochem Modern Environmental and Sinochem Ningbo Ltd.

On March 18, 2008, INEOS filed a motion to amend the complaint to add two additional respondents, Sinochem Environmental Protection Chemicals (Taicang) Co. Ltd. and Sinochem (U.S.A.) Inc., to add allegations of infringement of two additional patents, United States Patent Nos. 5,382,722 and 5,559,276, and to modify the request for relief to seek a limited rather than a general exclusion order. Respondents argued that complainants had failed to make a showing of good cause. The Commission investigative attorney argued that the motion should be denied insofar as it seeks to add patents to the complaint.

On March 28, 2008, the ALJ granted INEOS's motion, finding that, pursuant to Commission Rule 210.14(b)(1) (19 CFR 210.14(b)(1)), there was good cause to add the respondents and the patents and to modify the requested remedy. No petitions for review of this ID were filed.

Having examined the record of this investigation, the Commission has determined not to review the ALJ's ID.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as

amended (19 U.S.C. 1337), and in section 210.42 of the Commission's Rules of Practice and Procedure (19 CFR 210.42).

By order of the Commission.

Issued: April 24, 2008.

Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: On November 3, 2006, the Commission instituted an investigation titled *Certain Stringed Musical Instruments and Components Thereof*, Inv. No. 337-TA-586, based upon a complaint filed October 3, 2006, and supplemented October 24, 2006, by Geoffrey McCabe (Los Angeles, California) ("McCabe"). 71 FR 64738 (Nov. 3, 2006). The complaint alleged violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain stringed musical instruments and components thereof by reason of infringement of one or more of claims 1-6, 8, 9, and 11 of U.S. Patent No. 6,175,066 ("the '066 patent"); claims 1-6 of U.S. Patent No. 5,965,831; claims 1 and 14-22 of U.S. Patent No. 6,891,094 ("the '094 patent"); and claims 1-3, 6-10, 14, 15, 23, 27, 28, and 32 of U.S. Patent No. 5,986,191. (Grigny, France) ("Vigier"), and Schaller Electronic (Postbauer-Heng, Germany). Hoshino and Vigier have been terminated from the investigation on the basis of settlement agreements. Only claims 8, 9, and 11 of the '066 patent and claims 1 and 14-22 of the '094 patent remained in the case as of the date of the final ID.

On December 3, 2007, the administrative law judge ("ALJ") issued a final initial determination ("ID") finding no violation of section 337, on the ground that the economic prong of the domestic industry requirement was not met as required by section 337(a)(2), (3)(C). McCabe and the Commission investigative attorney filed petitions for review. On December 21, 2007, the Commission issued a notice extending the deadline for determining whether to review the subject ID by fifteen (15) days until February 1, 2008. On February 1, 2008, the Commission issued a notice extending the deadline for determining whether to review the

ID to February 8, 2008, and extending the target date for completion of the investigation to April 10, 2008. On February 7, 2008, the Commission issued a notice of a determination to review the subject ID in its entirety, requesting briefing on the issues on review, including certain specific questions. On April 10, 2008, the Commission issued a notice extending the target date to April 24, 2008.

Having considered the submissions on review and the relevant portions of the record, the Commission has determined to terminate the investigation with a finding of no violation for failure to meet the domestic industry requirement.

This action is taken under the authority of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and in sections 210.41 and 210.45(c) of the Commission's Rules of Practice and Procedure (19 CFR 210.41, 210.45(c)).

By order of the Commission.

Issued: April 24, 2008.

SUPPLEMENTARY INFORMATION:

Background: Since the 1970's the NIC Jails Division has provided services designed to assist public agencies in planning, building and occupying new jail facilities. These services have been provided through training courses (*i.e.* Planning of New Institutions and Managing Jail Design and Construction); technical assistance (*i.e.* jail and justice system assessments and How to Open New Institutions); and numerous documents including: Jail Planning and Expansion Local Officials and Their Roles, Resource Manual for Transition into a New Jail, Jail Design and Operation and the Constitution, Jail Design Review Handbook, Site Evaluation and Selection, Jail Design Guide, and Building Community Support for Your Project. All of these services focus on various aspects of the new jail planning and development process and have, over the years, contributed to the success of hundreds of counties in opening new jails that operate well and meet the detention needs of the community.

Objectives: The awardee of this cooperative agreement will produce a DVD that provides a comprehensive overview of the jail planning and development process. The video will be used to educate jail administrators, elected and appointed officials, county administrative staff, project managers, sheriffs, jail staff, other justice agencies, community members, citizen's groups, county boards, consultants, technical advisors and professionals in corrections and related fields on the activities that need to occur to ensure that the design, construction and occupancy of a new facility meets the needs of the county or other public agency. There are two primary goals: to clearly illustrate the importance of the planning process to the success of a new jail; and to provide viewers with basic information on each of the nine phases of the new jail planning process.

The nine phases of new jail planning will provide the educational basis for the DVD and they include: Project Recognition; Needs Assessment, Master Plans and Economic Feasibility Study; Program Development; Project Definition and Implementation Plan;
