Approval and Promulgation of Implementation Plans; Georgia: Enhanced Inspection and Maintenance Plan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Georgia State Implementation Plan (SIP), submitted by the Georgia Department of Natural Resources, through the Georgia

Environmental Protection Division, on December 28, 2007. The revisions include minor changes to Georgia's Air Quality Rules found at Chapter 391-3 20-17, pertaining to rules for Enhanced Inspection and Maintenance (I/M). Enhanced I/M was required for 1-hour ozone nonattainment areas classified as serious and above, under the Clean Air Act (CAA). The enhanced I/M program is not a required measure for Atlanta for the 8-hour ozone standard pursuant to the CAA because the area is classified as a moderate nonattainment area (73 FR 12013). However, the enhanced I/M program was approved into the SIP for the 1-hour ozone standard and will remain in the SIP until such time that the State removes the requirement. To remove the requirement from the SIP, the State would have to make a demonstration that removal of this program would not interfere with or delay attainment consistent with section 110(1) of the CAA. The I/M program is a way to ensure that vehicles are maintained properly and verify that the emission control system is operating correctly, in order to reduce vehicle-related emissions. Specifically, the changes update the amount of repair costs that may qualify for a waiver for 2008.

This action is being taken pursuant to section 110 of the CAA. In the Final Rules Section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this proposal. Any parties interested in commenting on this proposal should do so at this time.
