at 1-866-208-FERC or on the FERC Internet Web site (*http://www.ferc.gov*) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding the last three digits in the docket number field (i.e., CP08-33). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link on the FERC Internet Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notifications of these filings, document summaries and direct links to the documents. Go to the eSubscription link on the FERC Internet Web site.

[Project No. 12667-003]

# City of Hamilton, Ohio; Notice of Availability of Environmental Assessment

April 25, 2008.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for an Original Major License for the Meldahl Hydroelectric Project.

The project would be located at the Captain Anthony Meldahl Locks and Dam and would occupy about 81 acres of federal lands administered by the Huntington District of the U.S. Army Corps of Engineers. Staff has prepared an environmental assessment (EA) for the project.

The EA contains staff's analysis of the potential environmental effects of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at *http:// www.ferc.gov* using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at

*FERCOnlineSupport@ferc.gov* or toll-free at 1–866–208–3676, or for TTY, 202–502–8659.

Any comments should be filed within 30 days from the date of this notice and should be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please affix Project No. 12667–003 to all comments. Comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (*http://www.ferc.gov*) under the "e-Filing" link.

For further information, please contact Peter Leitzke at 202–502–6059 or at *peter.leitzke@ferc.gov.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. PF07-10-000]

## LNG Development Company, LLC and Oregon Pipeline Company; Supplemental Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Oregon LNG Terminal and Pipeline Project, Request for Comments on Environmental Issues and Notice of Public Meetings

April 28, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) is in the process of evaluating the Oregon LNG Terminal and Pipeline Project involving the construction and operation of facilities proposed by LNG Development Company, LLC and Oregon Pipeline Company (collectively referred to as Oregon LNG). The facilities would be located in northern Oregon and consist of a liquefied natural gas (LNG) import terminal in Warrenton, Oregon, and an associated 121-mile-long natural gas pipeline from the LNG import terminal southeastward across Clatsop, Tillamook, Columbia, Washington, Yamhill, Marion, and Clackamas Counties, Oregon, to an interconnection with existing natural gas pipelines systems near Molalla in Clackamas County, Oregon.

As a part of this evaluation, FERC staff will prepare an environmental impact statement (EIS) that will address the environmental impacts of the project. The Commission will use the EIS in its decision-making process to determine whether or not to authorize the project. Although the FERC will be the lead federal agency in the preparation of an EIS that will satisfy the requirements of the National Environmental Policy Act (NEPA), the U.S. Coast Guard and U.S. Army Corps of Engineers will serve as cooperating agencies during preparation of the EIS. Oregon LNG has not yet filed a formal

application with the FERC. However, we<sup>1</sup> have initiated a NEPA review under the FERC's Pre-Filing Process. The purpose of the Pre-Filing Process is to encourage the early involvement of interested stakeholders and to identify and resolve issues before an application is filed with the FERC. As part of this process, the FERC issued a Notice of Intent to Prepare an Environmental Impact Statement for the Proposed Oregon LNG Terminal and Pipeline Project, Request for Comments on Environmental Issues and Notice of Public Meetings (NOI) on August 24, 2007. Since that NOI was issued, Oregon LNG has changed its proposed project. Specifically, the routing of the pipeline route has changed and the project now includes a 9.4-mile-long pipeline lateral as well as an electric compressor station. Because of these changes, the FERC issued this supplemental NOI. Through the original and supplemental NOIs, we are seeking input from the public in preparing the EIS for the project.

This supplemental NOI explains the scoping process we will use to gather information on the project from the public and interested agencies. Your input will help identify the issues that need to be evaluated in the EIS. Comments on the project may be submitted in written form or verbally. Further details on how to submit written comments are provided in the Public Participation section of this NOI.

<sup>&</sup>lt;sup>1</sup> "We," "us," and "our" refer to the environmental staff of the FERC's Office of Energy Projects.
