**Title:** TSCA Section 8(a) Preliminary Assessment Information Rule (PAIR).

**ICR Numbers:** EPA ICR No. 0586.11, OMB Control No. 2070-0054.

**ICR Status:** This ICR is currently scheduled to expire on May 31, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond

to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** Section 8(a) of the Toxic Substances Control Act (TSCA) authorizes EPA to promulgate rules under which manufacturers, importers and processors of chemical substances and mixtures must maintain records and submit reports to EPA. EPA has promulgated the Preliminary Assessment Information Rule (PAIR) under TSCA section 8(a). EPA uses PAIR to collect information to identify, assess and manage human health and environmental risks from chemical substances, mixtures and categories. PAIR requires chemical manufacturers and importers to complete a standardized reporting form to help evaluate the potential for adverse human health and environmental effects caused by the manufacture or importation of identified chemical substances, mixtures or categories. Chemicals identified by EPA or any other federal agency, for which a justifiable information need for production, use or exposure-related data can be satisfied by the use of the PAIR are proper subjects for TSCA section 8(a) PAIR rulemaking. In most instances the information that EPA receives from a PAIR report is sufficient to satisfy the information need in question. This information collection addresses the reporting and recordkeeping requirements associated with TSCA section 8(a).

Responses to the collection of information are mandatory (see 40 CFR parts 712, 766 and 792). Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 29.0 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize

technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Entities potentially affected by this action are companies that manufacture or import chemical substances, mixtures or categories.

**Estimated No. of Respondents:** 26.

**Frequency of Collection:** On occasion.

**Estimated Total Annual Burden on Respondents:** 1,568 hours.

**Estimated Total Annual Costs:** \$89,593 that includes \$2,746 in Operations and Maintenance costs.

**Changes in Burden Estimates:** There is a net increase of 988 hours (from 580 hours to 1,568 hours) in the total estimated respondent burden compared with that currently in the OMB inventory. This increase reflects EPA's revised estimates of the number of PAIR reports filed annually. There is also a corresponding \$1,746 increase in associated non-labor costs (e.g., photocopying and mailing costs). The Supporting Statement includes detailed analyses of these revised estimates. These changes are adjustments.

Dated: April 28, 2008.
