

Secretary of Defense for Industrial Policy, 241 18th Street South, Crystal Square 4, Suite 501, ATTN: Dawn Vehmeier, Arlington, VA 22202, or e-mail us at Industrial_Policy@osd.mil.

Title, Associated Form, and OMB Number: Foreign Sourcing for Defense Applications; OMB Number 0704-0419.

Needs and Uses: The Deputy Under Secretary of Defense (Industrial Policy) has been assigned responsibility to determine the extent of foreign sourcing and any relevant impact to on-going programs producing precision munitions, consumables and selected high interest force protection programs.

Affected Public: Business or other for profit.

Number of Respondents: 500.

Responses Per Respondent: 1.

Annual Responses: 500.

Average Burden Per Response: 5 hours.

Annual Burden Hours: 2,500.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Specifically, ODUSD(IP) will evaluate the: (1) Extent of foreign sourcing within a sampling of operationally-important products; (2) impact of foreign sourcing on military readiness; and (3) extent to which DoD actions encourage or discourage use of foreign sources. To ensure that it addresses emerging foreign sourcing issues, the Department of Defense (DoD) will collect information from prime contractors and first and second tier subcontractors.

Dated: May 1, 2008.

Patricia L. Toppings,
OSD Federal Register Liaison Officer,
Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Office of the Secretary

[Docket ID: DoD-2008-HA-0046]

Proposed New Collection, Comment Request

AGENCY: Office of the Assistant Secretary of Defense for Health Affairs, DoD.

ACTION: Notice.

In compliance with Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995, the Office the Assistant Secretary of Defense for Health Affairs announces a proposed new information collection and seeks

public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by July 7, 2008.

ADDRESSES: You may submit comments, identified by docket number and or RIN number and title, by either of the following methods:

- Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.
- Mail: Federal Docket Management System Office, 1160 Defense Pentagon, Washington, DC 20301-1160.

Instructions: All submissions received must include the agency name and docket number or Regulatory Information Number (RIN) for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers of contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Office of the Assistant Secretary of Defense for Health Affairs, Force Health Protection and Readiness, ATTN: Caroline Miner, 5113 Leesburg Pike, Suite 901, Falls Church, VA, 22041, or call (703) 575-2677.

Title, Associated Form, and OMB Number: Researcher Responsibilities Form; OMB Number 0720-TBD.

Needs and Uses: This collection instrument serves to document researcher's understanding and acceptance of the regulatory and ethical responsibilities for including humans as subjects in research. Principal and co-principal investigators must have the proposed, signed form on file before they may engage in research conducted, sponsored, or supported by entities under the purview of the Under

Secretary of Defense for Personnel and Readiness.

Affected Public: Federal government; business or other for-profit; not-for-profit institutions.

Annual Burden Hours: 293.

Number of Respondents: 585.

Responses Per Respondent: 1.

Average Burden Per Response: .50.

Frequency: On occasion; original document submitted one time per researcher. Once their document is on file, a researcher may reaffirm their commitment every three years electronically if they remain engaged in human subject research.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Federal Government institutions wishing to conduct, sponsor, or support research on human subjects must first submit for approval to duly designated authorities an Assurance that they will comply with established guidelines in such research. Such Assurances are granted by components of DoD and by the Department of Health and Human Services (HHS). New DoD guidance now requires principal and co-principal investigators individually and explicitly to acknowledge that they understand and accept responsibility for protecting the rights and welfare of human research subjects. All principal and co-principal investigators engaged in research supported or conducted under the purview of the Under Secretary of Defense for Personnel and Readiness must read and sign a document that attests to their commitment to abide by the provisions of: (a) *The Belmont Report: Ethical Principles and Guidelines for the Protection of Human Subjects of Research*; (b) the U.S. Department of Defense (DoD) regulations for the protection of human subjects at Title 32, Code of Federal Regulations, Part 219 and DoD Directive 3216.02; (c) the Assurance of the engaged institution; relevant institutional policies and procedures where appropriate; and other Federal, State, or local regulations where appropriate. The Office of the Assistant Secretary of Defense for Health Affairs announces the intent to establish and use a new document format for this purpose and seeks public comment on the provisions thereof. Respondents are professionals who have been designated as principal or co-principal investigators. When preparing to initiate work on their first human subject research protocol, each principal investigator and co-principal investigators must assure they have the proposed Researcher Responsibilities form on file with the Office of the Under

Secretary of Defense for Personnel and Readiness Component Designated Official Office. In the first year this may require new forms from approximately 585 investigators, most already doing research. After the first year, the burden will level off to approximately 85. The form is two pages in length including statements agreed to and half a page for respondent signature and contact information. Respondents generally will be required to have the signed form scanned and forwarded electronically. The form will be filed electronically and form completion will be logged into a database. After three years, if a researcher still is engaged in research with the Office of the Under Secretary of Defense for Personnel and Readiness, he/she will be asked to reaffirm his/her commitment electronically. This information collection does not involve sensitive personal information and requires no special confidentiality measures.

Dated: May 1, 2008.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army

Notice of Intent To Prepare an Environmental Impact Statement (EIS) for Grow the Army (GTA) Actions at Fort Carson, CO

AGENCY: Department of the Army, DoD.

ACTION: Notice of Intent (NOI).

SUMMARY: As part of the GTA effort, the U. S. Army intends to prepare an EIS to analyze the environmental and socioeconomic impacts resulting from the decision to station a new Infantry Brigade Combat Team (IBCT) at Fort Carson. The EIS will also analyze Fort Carson's Butts Army Airfield (BAAF) as a potential location for stationing a Combat Aviation Brigade (CAB) in the future.

ADDRESSES: For questions regarding the EIS, please contact Ms. Deb Owings or Ms. Robin Renn, Fort Carson National Environmental Policy Act Coordinators, 1638 Elwell Street, Building 6236, Fort Carson, CO 80913-4000. Written comments may be mailed to that address or e-mailed to CARSDECAMNEPA@conus.army.mil.

FOR FURTHER INFORMATION CONTACT: Ms. Dee McNuff, Fort Carson Public Affairs Office at (719) 526-1269, during normal business hours.

SUPPLEMENTARY INFORMATION: Fort Carson consists of approximately 137,000 acres of DOD-managed land south of Colorado Springs (east of the Rocky Mountain Front Range) and occupies portions of El Paso, Pueblo, and Fremont counties. The Pinon Canyon Maneuver Site (PCMS) is the primary maneuver training area for Fort Carson. In addition to the units stationed there, Fort Carson and the PCMS also provide training to Reserve units and the National Guard. The PCMS is located approximately 150 miles southeast of Fort Carson and consists of approximately 235,000 acres.

The stationing of additional BCTs and other force structure realignment actions across the Army was analyzed in the 2007 Final Programmatic EIS for Army Growth and Force Structure Realignment. The Record of Decision determined that Fort Carson would receive an additional IBCT contingent on site specific NEPA analysis. The Fort

Carson GTA EIS will analyze environmental and socioeconomic impacts as a result of this decision. Also analyzed will be the potential stationing of a CAB and newly identified projects that would be required to support GTA actions.

Implementing these requirements would involve constructing new facilities at Fort Carson to support an IBCT (approximately 4,500 additional Soldiers and their dependents), the potential stationing of a CAB (approximately 2,800 Soldiers and their dependents) and upgrading ranges. Increased use of live-fire training ranges and maneuver areas would occur at Fort Carson and the PCMS.

The Fort Carson GTA EIS will analyze the impact of several alternatives including the No Action Alternative. Alternatives to be examined by the EIS may consist of alternative siting locations within Fort Carson for facility/utility construction projects, renovation and use of existing facilities. The EIS will also examine increases in land use intensity resulting from training activities connected with GTA stationing decisions. Under the No Action Alternative, the stationing of a new IBCT and CAB at Fort Carson would not be implemented.

Impacts analyzed will include a wide range of environmental resource areas including, but not limited to, air quality, traffic, noise, water resources, biological resources, cultural resources, socioeconomic, utilities, land use, solid and hazardous materials/waste, and cumulative environmental effects. Additional resources and conditions may be identified as a result of the scoping process initiated by this NOI.

The public will be invited to participate in the scoping process which includes several scoping meetings to provide input on the proposed actions and alternatives in the EIS. The public will also be invited to review and comment on the Draft EIS. These public involvement opportunities will be announced in the local news media. Comments from the public will be considered before any decision is made regarding implementing the proposed action at Fort Carson.

Dated: May 1, 2008.

Addison D. Davis, IV,

*Deputy Assistant Secretary of the Army
(Environment, Safety and Occupational Health).*
