

EPA is applying the principles of public participation to all pesticides undergoing reregistration and tolerance reassessment. The Agency's Pesticide Tolerance Reassessment and Reregistration; Public Participation Process, published in the **Federal Register** on May 14, 2004 (69 FR 26819)(FRL-7357-9), explains that in conducting these programs, the Agency is tailoring its public participation process to be commensurate with the level of risk, extent of use, complexity of the issues, and degree of public concern associated with each pesticide. For triclosan, a modified, 4-Phase process with 1 comment period and ample opportunity for public consultation seems appropriate in view of its refined risk assessment, and/or other factors. However, if as a result of comments received during this comment period EPA finds that additional issues warranting further discussion are raised, the Agency may lengthen the process and include a second comment period, as needed.

All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. Comments will become part of the Agency Docket for triclosan. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

#### *B. What is the Agency's Authority for Taking this Action?*

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product-specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Section 408(q) of the FFDCA, 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

*Privacy Impact Assessment:* No impact(s).

*Needs and Uses:* Congress has mandated that after February 17, 2009, full-power television broadcast stations must transmit only in digital signals, and may no longer transmit analog signals. On December 22, 2007, the Commission adopted a Report and Order in the matter of the Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television, MB Docket No. 07–91, FCC 07–228, to establish the rules, policies and procedures necessary to complete the nation's transition to Digital TV (DTV). With the DTV transition deadline less than 14 months away, the Commission must ensure that broadcasters meet their statutory responsibilities and complete construction of, and begin operations on, the facility on their final, post-transition (digital) channel that will reach viewers in their authorized service areas by the statutory transition deadline, when they must cease broadcasting in analog. The Commission wants to ensure that no consumers are left behind in the DTV transition. Specifically, the Report and Order requires the following:

- *Extension Requests.* Stations with a construction deadline on or before February 17, 2009 may file a request for an extension of time to construct their final, post-transition (DTV) facility using FCC Form 337.

- *Revisions to FCC Form 337.* FCC Form 337 was revised to reflect the stricter standard of review.

- *Tolling Requests.* Stations with a construction deadline occurring February 18, 2009 or later may file a notification of an event that would toll their deadline to construct their final, post-transition (DTV) facility using FCC Informal Application Form.

*OMB Control Number:* 3060–1105.

*Title:* Digital TV Transition Status Report.

*Form Number:* FCC Form 387.

*Type of Review:* Revision of a currently approved collection.

*Respondents:* Business or other for-profit entities; not-for-profit institutions.

*Total Annual Costs:* \$1,367,100.

*Nature of Response:* Required to obtain or retain benefits. The statutory authority for this information collection is contained in Sections 1, 4(i) and (j), 7, 301, 302, 303, 307, 308, 309, 312, 316, 318, 319, 324, 325, 336 and 337 of the Communications Act of 1934, as amended.

*Confidentiality:* No need for confidentiality required.

*Privacy Impact Assessment:* No impact(s).

*Needs and Uses:* Congress has mandated that after February 17, 2009, full-power television broadcast stations must transmit only in digital signals, and may no longer transmit analog signals. On December 22, 2007, the Commission adopted a Report and Order, In the Matter of the Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television, MB Docket No. 07–91, FCC 07–228, to establish the rules, policies and procedures necessary to complete the nation's transition to Digital TV (DTV). The Commission wants to ensure that no consumers are left behind in the DTV transition.

This Report and Order requires all full-power television stations to file a DTV Transition Status Report using FCC

Form 387 on or before February 19, 2008. In addition, stations must update these forms as events warrant and, by October 20, 2008, if they have not by that date reported the completion of their transition, i.e., that they have begun operating their full facility as authorized by the post-transition DTV Table Appendix B, stations must provide the specific details of their current transition status, any additional steps necessary for digital-only operation upon expiration of the February 17, 2009 transition deadline, and a timeline for making those steps.
