B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has designated the proposed rule change as one that: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) does not become operative for 30 days from the date of filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.⁸ Therefore, the foregoing rule change has become effective pursuant to section 19(b)(3)(A) of the Act⁹ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁰ The Exchange has asked the Commission to waive the operative delay to permit the extension of the implementation period of the ABC program to become operative prior to the 30th day after filing, in order to allow the implementation period to continue without interruption.

The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest and will allow the Exchange to extend the roll-out of the ABC program, which expired on May 1, 2008, without interruption.¹¹ Therefore, the Commission designates the proposal operative upon filing.

⁸ In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to provide the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. 17 CFR 240.19b-4(f)(6)(iii). The Exchange has fulfilled this requirement.

⁹ 15 U.S.C. 78s(b)(3)(A).

¹⁰ 17 CFR 240.19b-4(f)(6).

¹¹ For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate the rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FINRA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item III below. FINRA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

FINRA is proposing to amend its options rules to integrate the responsibility for supervision of a member's public customer options business into its overall supervisory and compliance program. The proposed rule change is substantively similar to recent amendments to the rules of the Chicago Board Options Exchange ("CBOE"), which were approved by the Commission.⁴ As part of these changes, FINRA proposes to eliminate the requirement that a firm must designate a SROP and CROP to be responsible for the overall supervision and compliance programs, respectively, for a member's public customer options activities. FINRA believes that the supervisory and compliance function of a member's public customer options activities would be better integrated into the matrix of a firm's overall supervisory and compliance functions rather than separately vested in a SROP and CROP.

FINRA does not believe that eliminating the SROP and CROP requirements would lead to a reduction in supervision, as firms have an obligation to designate an appropriately registered principal(s) to supervise their public customer options activities pursuant to NASD Rule 3010(a)(2).⁵ The

⁴ See Securities Exchange Act Release No. 56971 (December 14, 2007), 72 FR 72804 (December 21, 2007) (Approval Order for File No. SR-CBOE-2007-106).

⁵ NASD Rule 3010(a)(2) requires that members designate "an appropriately registered principal(s)

proposed rule change would provide firms greater flexibility to incorporate supervision into existing, firm-wide supervisory structures.

The proposed rule change would amend NASD Rule 1022 (Categories of Principal Registration) to delete the reference to the SROP and CROP and clarify that if a person is engaged in the supervision of options and security futures sales practices, including a person designated pursuant to NASD Rule 3010(a)(2), then such person must be registered as a Registered Options and Security Futures Principal ("ROFSP").

The proposed rule change also makes a few technical changes. All references to "Registered Options Principal" would be changed to "Registered Options and Security Futures Principal" to reflect the change in title when rules governing security futures were adopted.⁶ All references to "the Association" would be changed to "NASD" for ease of reference while the rules continue to be part of the legacy NASD rulebook until such time as the legacy NASD and incorporated NYSE rules are consolidated into the FINRA rule book when all references to "NASD" will be changed to "FINRA." Finally, all references to "put and call" would be deleted before options and "options" will mean all types of options.

The proposed rule change would amend NASD Rule 2220(b) (Options Communications with the Public) to delete the reference to the CROP and instead require that all advertisements, sales literature (except completed worksheets), and educational material issued by a member or member organization pertaining to options be approved in advance by a ROFSP designated by the member's written supervisory procedures.

In addition, the proposed rule change would amend NASD Rule 2860 (Options) in several respects. First, paragraph (b)(16)(E)(iii) would be amended to delete the reference to the SROP and CROP and require that a specific ROFSP(s) be designated to be responsible for approving customer accounts that do not meet the specific criteria and standards for writing uncovered short option transactions and for maintaining written records of the reasons for every account so approved. The proposed rule change would allow

with authority to carry out the supervisory responsibilities of the member for each type of business in which it engages for which registration as a broker/dealer is required."

⁶ See Securities Exchange Act Release No. 46663 (October 15, 2002), 67 FR 64944 (October 22, 2002) (Approval Order for File No. SR-NASD-2002-040).

members the flexibility to assign this responsibility, which currently rests with the SROP and/or CROP, to a specific ROSFP(s).

Second, the proposed rule change would amend paragraph (b)(18) and the treatment of options discretionary accounts. Specifically, under the proposed rule change, each firm would be required to designate specific ROSFPs to review discretionary accounts.⁷ A ROSFP other than the ROSFP who accepted the account would review the acceptance of each discretionary account to determine that the ROSFP accepting the account had a reasonable basis for believing that the customer was able to understand and bear the risk of the strategies or transactions proposed and must maintain a record of the basis for such determination.

In addition, the proposed rule change would eliminate the requirement in paragraph (b)(18) that discretionary options orders be approved and initialed on the day of entry by the branch office manager or authorized Registered Options Principal ("ROP") or confirmed within a reasonable time by a ROP if the branch office manager is not a ROP, if a firm uses computerized surveillance tools. Under the proposed rule change, discretionary orders would be required to receive frequent appropriate supervisory review by a ROSFP who is not exercising discretionary authority (instead of a CROP) and be reviewed in accordance with a member's written supervisory procedures. The proposed rule change would ensure that supervisory responsibilities are assigned to specific ROSFP-qualified individuals, thereby enhancing the quality of supervision.

Firms that do not use computerized surveillance tools for the frequent and appropriate review of discretionary activity would be required to establish and implement procedures to require ROSFPs who have been designated to review discretionary accounts to approve and initial each discretionary order on the day entered. FINRA believes that any member that does not use computerized tools for the frequent and adequate surveillance of options discretionary account activity should continue to be required to perform the daily manual review of discretionary orders.

Paragraph (b)(18) also would be revised to limit the duration of the time and price discretionary authority to the

end of the business day on which the customer granted such discretion, absent specific written contrary indication signed and dated by the customer. The limitation would not apply to time and price discretion exercised in an institutional account, as defined in NASD Rule 3110(c)(4), pursuant to valid Good-Till-Cancelled instructions issued on a "not held" basis. The proposed rule change would require any exercise of time and price discretion to be reflected on the order ticket. The proposed rule change mirrors the limitations to discretionary authority provided in NASD Rule 2510(d). FINRA believes that it is appropriate to have consistent treatment of discretionary orders for options as for all other securities.

Third, the proposed rule change would amend paragraph (b)(20) to delete references to a supervision process involving a SROP and CROP, and instead would require each member that conducts a public customer options business to ensure that its written supervisory system policies and procedures pursuant to NASD Rules 3010, 3012, and 3013 adequately address the member's public customer options business. Although the proposed rule change would eliminate entirely the positions and titles of the SROP and CROP, a member would still be required pursuant to NASD Rule 3010(a)(2) to designate "an appropriately registered principal(s) with authority to carry out the supervisory responsibilities of the member for each type of business in which it engages for which registration as a broker/dealer is required," which would include designating a ROSFP to supervise a member's public customer options activities.

FINRA will announce the effective date of the proposed rule change in a *Regulatory Notice* to be published no later than 60 days following Commission approval. The effective date will be no later than 30 days following publication of the *Regulatory Notice* announcing Commission approval.

2. Statutory Basis

FINRA believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,⁸ which requires, among other things, that FINRA rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. FINRA believes that the

supervisory and compliance function of a member's public customer options activities would be better integrated into the matrix of a firm's overall supervisory and compliance functions rather than separately vested in a SROP and CROP.

B. Self-Regulatory Organization's Statement on Burden on Competition

FINRA does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-FINRA-2007-035 and should be submitted on or before May 30, 2008.

IV. Commission Findings

The Commission has carefully reviewed the proposed rule change and finds that it is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association.⁹ In particular, the Commission believes that the proposed rule change would help to better integrate the supervisory and compliance functions of a firm's public customer options activities into the firm's overall supervisory and compliance functions, thereby eliminating any uncertainty about where supervisory responsibility lies. Therefore, the Commission finds that the proposed rule change is consistent with Section 15A(b)(6) of the Act,¹⁰ which requires, among other things, that FINRA rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest.

The Commission also finds good cause to approve the proposed rule change prior to the thirtieth day after the date of publication of notice of filing of the amendment in the **Federal Register**. The proposed rule change is substantially similar to recent CBOE rule amendments concerning options supervision, which were approved by the Commission.¹¹ The Commission believes that approving the proposed rule change will simplify firms' compliance, and is consistent with the public interest and the investor protection goals of the Act. Finally, the Commission finds that it is in the public interest to approve the proposed rule

change as soon as possible to expedite its implementation.

Accordingly, the Commission believes good cause exists, consistent with Sections 15A(b)(6) and 19(b) of the Act,¹² to approve the proposed rule change on an accelerated basis.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹³ that the proposed rule change (File No. SR-FINRA-2007-035), as modified by Amendment No. 1, be, and hereby is, approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁴

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-57777; File No. SR-ISE-2008-25]

Self-Regulatory Organizations; International Securities Exchange, LLC; Order Approving Proposed Rule Change, as Modified by Amendment No. 1, Relating to the Rescission of the "No MPM" Order Type

May 5, 2008.

On March 5, 2008, the International Securities Exchange, LLC ("ISE") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² a proposed rule change to amend its rules governing ISE Stock Exchange to rescind the "No MPM" order type. On March 17, 2008, ISE filed Amendment No. 1 to the proposed rule change. The proposed rule change, as modified by Amendment No. 1, was published for comment in the **Federal Register** on April 1, 2008.³ The Commission received no comment letters on the proposed rule change. This order approves the proposed rule change, as modified by Amendment No. 1.

The best bids and offers on the ISE Stock Exchange are displayed to the marketplace on a continuous basis. In addition, the ISE offers incoming orders

an opportunity to receive price improvement at the midpoint of the National Best Bid or Offer ("NBBO") through its MidPoint Match ("MPM") process. Specifically, before executing incoming orders against the ISE's displayed bid or offer, the system checks MPM to see if there is contra-side interest that can provide price improvement. However, under ISE's current rules, Equity Electronic Access Members may specify on orders that they do not want the orders to execute against MPM interest, thereby denying such orders the opportunity for price improvement.

The Exchange proposes to amend Rules 2104 and 2106 to eliminate the "No MPM" order type, and to clarify in Rule 2107 that all inbound orders will be exposed to MPM interest and be afforded price improvement, when available, before executing against the ISE's displayed quotations. The Exchange also proposes to amend Rule 2129 to clarify that MPM is a process by which ISE members may receive an execution price that is at the midpoint of the NBBO.

After careful review, the Commission finds that the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to a national securities exchange.⁴ Specifically, the Commission finds that the proposed rule change is consistent with Section 6(b)(5)⁵ of the Act, which requires that, among other things, the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Commission believes that exposing all inbound orders to MPM interest should afford such orders an opportunity for price improvement by providing customers the opportunity to interact with an additional source of liquidity.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR-ISE-2008-25), as modified by Amendment No. 1, be, and it hereby is, approved.
