Background

On May 9, 2008, the U.S. Environmental Protection Agency announced the availability of NMFS' DEIS concerning the Makah Indian Tribe's February 2005 request to resume limited hunting of ENP gray whales in the coastal portion of the Tribe's usual and accustomed fishing grounds, off the coast of Washington State, for ceremonial and subsistence purposes. The Tribe's proposed action stems from the 1855 Treaty of Neah Bay, which expressly secures the Makah Tribe's right to hunt whales. To exercise that right, the Tribe is seeking authorization from NMFS under the MMPA and the Whaling Convention Act. The release of this DEIS is one of several steps NMFS will undertake to evaluate the Tribe's request.

The DEIS, prepared pursuant to the National Environmental Policy Act, considers various alternatives to the Tribe's proposed action. To develop the full range of action alternatives—five in total—we considered the principal components associated with a hunt, including: the time when whale hunting would occur; the area where whale hunting would occur; the annual and five-year limits on the number of whales harvested, struck, and struck and lost; cessation of whale hunting if a predetermined number of identified whales (i.e., included in a photographic catalog of whales from the Pacific Coast Feeding Aggregation area) were harvested; and the method of hunting. We developed these alternatives with input from NMFS staff, the applicant, the cooperating agency (i.e., Bureau of Indian Affairs), and oral and written comments from the public. This DEIS addresses a number of resources identified for review during both internal and public scoping, including: water quality, marine habitat and species, ENP gray whales, other wildlife species, economics, environmental justice, social environment, cultural resources, ceremonial and subsistence resources, noise, aesthetics, transportation, public services, public safety, and human health.

The DEIS provides an important opportunity for the public to formally comment on the Tribe's proposal and the various alternatives. These

comments, in conjunction with considerations described in the DEIS, will provide key information to assist NMFS with its final decision on the Tribe's request.

Abstract: The data collection under this request is governed by sections 304.23-304.30 of the June 5, 2006, regulations that implement section 662 (h) of the IDEA Amendments of 2004, which require that individuals who receive a scholarship through the Personnel Development Program funded under the Act subsequently provide special education and related services to children with disabilities for a period of two years for every year for which assistance was received. Scholarship recipients who do not satisfy the requirements of the regulations must repay all or part of the cost of assistance, in accordance with regulations issued by the Secretary. These regulations implement requirements governing, among other things, the service obligation for scholars, reporting requirements by grantees, and repayment of scholarships by scholars. In order for the federal government to ensure that the goals of the program are achieved, certain data collection, recordkeeping, and documentation are necessary. In addition, this data collection is governed by the Government Performance and Results Act (GPRSA). GPRSA requires Federal agencies to establish performance measures for all programs, and the Office of Special Education Programs (OSEP) has established performance measures for the Personnel Development Program. Data collection from scholars who have received scholarships under the Personnel Development Program is necessary to evaluate these measures.

AGENCY: Department of Education.

ACTION: Notice—Computer Matching between the Department of Education and the Department of Justice.

SUMMARY: Section 421(a)(1) of the Controlled Substances Act (21 U.S.C. 862(a)(1)) includes provisions regarding the judicial denial of Federal benefits. Section 421 of the Controlled Substances Act, which was originally enacted as section 5301, of the Anti-Drug Abuse Act of 1988, was amended and redesignated as section 421 of the Controlled Substances Act by section 1002(d) of the Crime Control Act of 1990, Public Law 101-647 (hereinafter referred to as "section 5301") authorizes Federal and State judges to deny certain Federal benefits (including student financial assistance under Title IV of the Higher Education Act of 1965, as amended (HEA)) to individuals convicted of drug trafficking or possession.

In order to ensure that Title IV, HEA student financial assistance is not awarded to individuals subject to denial of benefits under court orders issued pursuant to section 5301, the Department of Justice and the Department of Education implemented a computer matching program. The 18-month computer matching agreement (CMA) was recertified for an additional 12 months on June 18, 2007. The 12-month recertification of the CMA will automatically expire on June 18, 2008.

The Department of Education must continue to obtain from the Department of Justice identifying information regarding individuals who are the subject of section 5301 denial of benefits court orders. The purpose of this notice is to announce the continued operation of the computer matching program and to provide certain required information concerning the computer matching program.
