

plan for the project, including the extent to which the methods of evaluation—

(1) Are appropriate for the project; and

(2) To the extent possible, are objective and produce data that are quantifiable.

(g) *Adequacy of Resources.* (5 points) The Secretary reviews each application to determine the adequacy of the resources that the applicant plans to devote to the project, including facilities, equipment, and supplies.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notice (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section in this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section in this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. Performance Measures:

The Department has established the following Government Performance and Results Act of 1993 (GPRA) performance measures for the Training and Advisory Services Program (Equity Assistance Centers), adapted from a set of common measures developed to help assess performance across the Department's technical assistance programs:

Program Goal: To support access and equity in public schools and help school districts solve equity problems in education related to race, gender, and national origin.

Objective 1 of 2: Provide high-quality technical assistance and training to public school districts in addressing equity in education.

Measure 1.1 of 4: The percentage of customers of EACs that develop, implement, or improve their policies or practices, or both, in eliminating, reducing, or preventing harassment, conflict, and school violence.

Measure 1.2 of 4: The percentage of customers of EACs that develop, implement, or improve their policies or practices, or both, ensuring that students of different race, sex, and national origin have equitable opportunity for high-quality instruction.

Measure 1.3 of 4: The percentage of customers of EACS that report the products and services they received from the EACs are of high quality.

Measure 1.4 of 4: The percentage of customers who report that the products and services they received from the EACs are of high usefulness to their policies and practices.

All grantees will be expected to submit, as part of their annual and final performance reports, quantitative data documenting their progress with regard to these performance measures.

Note: A strong evaluation plan should be included in the application narrative and should be used, as appropriate, to shape the development of the project from the beginning of the grant period. The plan should include benchmarks to monitor progress toward specific project objectives and outcome measures to assess the impact on teaching, learning, or other important outcomes for project participants. More specifically, the plan should identify the individual, organization, or both that have agreed to serve as evaluator for the project and describe the qualifications of that evaluator. The plan should describe the evaluation design, indicating—(1) What types of data will be collected; (2) when various types of data will be collected; (3) what methods will be used; (4) what instruments will be developed and when; (5) how the data will be analyzed; (6) when reports of results and outcomes will be available; and (7) how the applicant will use the information collected through the evaluation to monitor progress of the funded project and to provide accountability information about both success at the initial site and effective strategies for replication in other settings. Applicants are encouraged to devote an appropriate level of resources to project evaluation.

Furthermore, the Department will provide information to grantees about the client satisfaction survey, which will be used to evaluate progress on these performance measures. The grantees will be expected to cooperate with the administration of the survey.
