**SUPPLEMENTARY INFORMATION:**

### Background

Section 204(d) of the Magnuson-Stevens Act (16 U.S.C. 1824(d)) provides, among other things, that the Secretary of Commerce (Secretary) may issue a transshipment permit which authorizes a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a point within the U.S. Exclusive Economic Zone (EEZ) or, with the concurrence of a state, within the boundaries of that state to a point outside the United States. In addition, Public Law 104–297, sec. 105(e) directs the Secretary to issue section 204(d) permits for up to 14 Canadian transport vessels to receive Atlantic herring harvested by United States fishermen within the boundaries of the State of Maine or within the portion of the EEZ east of the line 69 degrees 30 minutes west and within 12 nautical miles from the seaward boundary of that State.

Section 204(d)(3)(D) of the Magnuson-Stevens Act provides that an application may not be approved until the Secretary determines that “no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated ... an interest in performing the transportation at fair and reasonable rates.” NMFS is publishing this notice as part of its effort to make such a determination with respect to the application described below.

### Summary of Application

NMFS has received an application requesting authorization for 11 Canadian transport vessels to receive transfers of herring from U.S. purse harvesting vessels for the purpose of transporting the herring to processing plants in Canada. The transshipment operations will occur within the

boundaries of the State of Maine or within the portion of the exclusive economic zone east of the line 69 degrees 30 minutes west and within 12 nautical miles from the seaward boundary of that State.

Interested U.S. vessel owners and operators may obtain a copy of the complete application from NMFS (see **ADDRESSES**).

### National Oceanic and Atmospheric Administration

**RIN 0648–XH75**

#### Marine Mammals; File No. 13392

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; receipt of application.

**SUMMARY:** Notice is hereby given that Thomas A. Jefferson, NMFS Southwest Fisheries Science Center, 8604 La Jolla Shores Drive, La Jolla, CA 92037, has applied in due form for a permit to conduct research on bottlenose dolphins (*Tursiops truncatus*).

**DATES:** Written, telefaxed, or e-mail comments must be received on or before June 16, 2008.

**ADDRESSES:** The application and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713–2289; fax (301)427–2521; and Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802–4213; phone (562)980–4001; fax (562)980–4018.

Written comments or requests for a public hearing on this application should be mailed to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate.

Comments may also be submitted by facsimile at (301)427–2521, provided

the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is [NMFS.Pr1Comments@noaa.gov](mailto:NMFS.Pr1Comments@noaa.gov). Include in the subject line of the e-mail comment the following document identifier: File No. 13392.

**FOR FURTHER INFORMATION CONTACT:** Kate Swails or Carrie Hubbard, (301)713–2289.

**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The proposed research would provide up-to-date information to better understand the levels and impacts of persistent organic pollutants on the California coastal stock of bottlenose dolphins. Up to 60 individuals would be photo-identified and biopsied over the course of the five year permit. Killer whales (*Orcinus orca*), harbor porpoises (*Phocoena phocoena*), and bottlenose dolphins could be incidentally harassed during the proposed research. The sampling would occur mainly in Monterey Bay but may also occur in other locations along California.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 12, 2008.

project in the Port of Long Beach. The Corps is considering an application for Section 404 and Section 10 permits to conduct dredge and fill activities associated with the proposed consolidation of Piers D, E and F into a single 345-acre marine terminal with a 4,250-foot-long wharf at build-out. This would include redevelopment of 294 acres of existing land, creation of 10.7 acres of new open water and the placement of dredged material in 65.3 acres open water for a net gain of approximately 54.6 acres of new land in the consolidated terminal. The new terminal, which would be constructed over a 10-year time period, is intended to accommodate increasing cargo volumes being produced by the new generation of larger container vessels, and would include four deep-water berths, a container terminal yard, and an intermodal rail yard.

the hills between Chatsworth and Simi Valley, CA, was developed as a remote site to test rocket engines and conduct nuclear research. Area IV was established at the SSFL in 1953 and occupies 290 acres of the SSFL. The DOE Energy Technology Engineering Center (ETEC) is located on 90 acres within SSFL Area IV.

DOE is preparing the EIS in part as a response to a May 2, 2007, decision by the U.S. District Court of Northern California that DOE was in violation of NEPA for its 2003 decision to issue a Finding of No Significant Impact (FONSI), and to conduct remediation of the ETEC site, on the basis of an environmental assessment (EA) rather than an EIS.

DOE recognizes the need to follow the NEPA process and will evaluate the range of reasonable alternatives for remediation of SSFL Area IV. DOE will evaluate alternatives for disposition of radiological facilities and support buildings, remediation of the affected environment, and disposal of all resulting waste at existing, approved sites. DOE will consider the cumulative impacts from exposure to chemical and radiological constituents in SSFL Area IV from future land uses.

DOE invites public comment on the scope of this EIS during a scoping period that will end August 14, 2008. During this period, DOE officials will conduct public scoping meetings in the region surrounding the SSFL and in Sacramento, California, to provide the public and other stakeholders with an opportunity to comment on the scope of the EIS. DOE recognizes the value of the public's perspectives, and will inform, involve, and interact with the public during all phases of the EIS process.

DOE is issuing this Notice of Intent (NOI) in order to inform and request comments and assistance from Federal and state agencies, state and local governments, Tribal Nations, natural resource trustees, the general public, and other interested parties on the appropriate scope of the EIS, alternatives, environmental issues, and the environmental impacts related to DOE's remediation activities for SSFL Area IV. DOE invites those agencies with jurisdiction by law or special expertise to be cooperating agencies.

**DATES:** The public scoping period starts May 16, 2008 and will continue until August 14, 2008. DOE will consider all comments received or postmarked by August 14, 2008, in defining the scope of this EIS. Comments received or postmarked after that date will be considered to the extent practicable.
