

No comments objecting to the proposal were received. Class E airspace areas extending from 700 feet or more above the surface of the earth are published in paragraphs 6005 of FAA Order 7400.96, signed August 14, 2007, and effective September 15, 2007, which is incorporated by reference in 14 CFR 71.1. The class airspace designation listed in this document will be published subsequently in the Order.

### The Rule

The FAA is amending Title 14, Code of Federal Regulations (14 CFR) part 71 to modify Class E airspace at Waynesburg, PA, by providing additional controlled airspace for aircraft executing the RNAV (GPS) Runway 09/27 to the Green County Airport. This action also corrects the geographic position coordinates of the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in the Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies Class E Airspace at Waynesburg, PA.
