

indicators in its *Draft Report on the Environment (ROE) Technical Document (TD)*, and its publicly oriented companion document, the *Draft Report on the Environment (ROE)*, both released in 2003. For the 2008 EPA ROE, both the proposed indicators included in the report and the complete draft document were subjected to rigorous, independent, and external peer review, as well as public comment. Complete documentation of the peer review process and responses are available at <http://www.epa.gov/ncea.roe>. Thus, EPA has revised, updated, and refined the 2003 draft ROE in response to scientific developments, as well as feedback from EPA's Science Advisory Board and stakeholders. As a result, the 2008 EPA ROE provides both an update and an improvement over the 2003 draft edition.

EPA is also producing a *Highlights of Conditions and Trends* document, which summarizes the findings of the 2008 EPA ROE in an easier-to-understand format. The Highlights Document is expected to be publicly available later in the year.

EPA is committed to releasing periodic updates of the ROE so that information on environmental conditions and trends can be provided to interested members of the public.
