SUPPLEMENTARY INFORMATION: Section 1320.8(d), Title 5, Code of Federal Regulations requires PHMSA to provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies information collection requests that PHMSA will be submitting to OMB for renewal and extension. These information collections are contained in the pipeline safety regulations, 49 CFR parts 190–199. PHMSA has revised burden estimates, where appropriate, to reflect current

reporting levels or adjustments based on changes in proposed or final rules published since the information collections were last approved. The following information is provided for each information collection: (1) Title of the information collection; (2) OMB control number; (3) abstract of the information collection activity; (4) description of affected public; (5) estimate of total annual reporting and recordkeeping burden; and (6) frequency of collection. PHMSA will request a three-year term of approval for each information collection activity.

PHMSA requests comments on the following information collections:

1. *Title: Pipeline Safety: Excess Flow Valves—Customer Notification.*

OMB Control Number: 2137–0593.

Type of Request: Renewal of a currently approved information collection.

Abstract: Pipeline operators are required to provide notifications about excess flow valves to service line customers as described in 49 CFR 192.383. Upon request, an operator must make documentation of compliance available to PHMSA or the appropriate State regulatory agency.
