SUPPLEMENTARY INFORMATION: *Title:* Permit for Reshipment of Swine From Slaughtering Facilities.

OMB Number: 0579-xxxx.

Type of Request: Approval of a new information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et. seq.*), the Animal and Plant Health Inspection

Service (APHIS), U.S. Department of Agriculture, is authorized, among other things, to prevent the interstate spread of livestock diseases and to eradicate such diseases from the United States when feasible. In connection with this mission, APHIS' Veterinary Services (VS) program conducts animal disease surveillance programs, including diagnostic testing.

The regulations in 9 CFR, Subchapter C, Part 71, "General Provisions," provide for the collection of blood and tissue samples from livestock (horses, cattle, bison, captive cervids, sheep and goats, swine, and other farmed animals) and poultry at slaughtering or rendering establishments. Persons moving livestock and poultry interstate for slaughter or rendering may only move the animals to slaughtering or rendering establishments that have been listed by the Administrator of APHIS.

Livestock or poultry may not be removed from the premises of a slaughtering or rendering establishment except under a permit issued by APHIS and in accordance with applicable regulations of USDA's Food Safety and Inspection Service. Swine may be moved from a slaughtering establishment only with a permit that restricts such movement to either a holding facility or another slaughtering establishment and prohibits their return to the farm for feeding or breeding purposes, which could expose other farm animals to diseases that may be carried by animals intended for slaughter. Any person wishing to transport slaughter swine under a permit for reshipment must submit an application to APHIS' Veterinary Services program for their review and approval.

We are asking the Office of Management and Budget (OMB) to approve our use of this information collection activity for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the information collection on those who are

to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.16666 hours per response.

Respondents: Purchasers of market swine from slaughter facilities designated for shipment to alternate holding or slaughtering facilities.

Estimated annual number of respondents: 60.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 60.

Estimated total annual burden on respondents: 10 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 14th day of May 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF AGRICULTURE

Forest Service

Plan Revision for Shoshone National Forest, WY

AGENCY: Forest Service, USDA.

ACTION: Notice of adjustment for resuming the land management plan revision process.

SUMMARY: The USDA Forest Service is resuming preparation of the Shoshone National Forest revised land management plan as directed by the National Forest Management Act. Preparation of the revised plan was halted when the 2005 Forest Service planning rule was enjoined. A new planning rule (36 CFR part 219) was implemented on April 21 2008 allowing the planning process to be resumed. This notice resumes the plan revision process under the new planning rule.

DATES: Resumption is effective upon publication of this notice in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Bryan Armel, Planning Staff Officer, Shoshone National Forest, 808 Meadow

Lane Avenue, Cody, Wyoming, 82414, telephone 307.578.5134, or barmel@fs.fed.us. Information on this revision is also available at the Shoshone National Forest Web site at http://www.fs.fed.us/r2/shoshone/projects/planning/revision/revision_index.shtml.

SUPPLEMENTARY INFORMATION:

Notification of initiation of the plan revision process for the 1986 Shoshone National Forest Land and Resource Management Plan was provided in the **Federal Register** on September 20, 2005 (**Federal Register** Vol. 70, No. 181). The plan revision was initiated under the planning procedures contained in the 2005 Forest Service planning rule (36 CFR part 219 (2005)). On March 30, 2007, the federal district court for the Northern District of California enjoined the Forest Service from implementing and using the 2005 planning rule until the agency provided notice and comment and conducted an assessment of the rule's effects on the environment and completed consultation under the Endangered Species Act. Revision of the Shoshone National Forest Land and Resource Management Plan under the (36 CFR part 219 (2005)) rule was suspended in response to the injunction. On April 21, 2008 the Forest Service adopted a new planning rule. This rule (36 CFR part 219 (2008)) was adopted following completion of an environmental impact statement and consultation under the Endangered Species Act. This new planning rule explicitly allows the resumption of plan revisions started under the previous rule (36 CFR part 219 (2005)) based on a finding that the revision process conforms to the new planning rule (36 CFR 219.14(b)(3)(ii)).

From 2005 until 2007, the Shoshone National Forest prepared draft documents including an ecosystem sustainability analysis, comprehensive evaluation report, and draft plan components. The development and content of those documents and components are consistent with the 2008 planning rule. Beginning in May 2005 and prior to injunction of the 2005 planning rule, the Shoshone National Forest conducted public and cooperators meetings in five local communities, including approximately 52 public meetings, 13 Government Cooperators Work Group meetings, 2 field trips, and 1 revision fair. Draft documents, reports, and assessments were made available to the public for informal review and comment throughout the process. Public collaboration processes that occurred are consistent with the 2008 planning rule. Results from collaboration will be

used as the revision process resumes. The remainder of the revision process will be conducted in accordance with all Forest Service directives applicable to the 2008 planning rule.

Based on the discussions above, I find that the planning actions taken prior to April 21, 2008 conform to the planning process of the 2008 planning rule and for that reason the plan revision process does not need to be restarted. The Shoshone National Forest is resuming its plan revision process by scheduling public meetings to explain how the Shoshone's revision process will adjust to the 2008 Planning Rule, distribute pre-release versions of the draft proposed plan, and present a timeline for the remainder of the revision process.

Authority: 16 U.S.C. 1600-1614; 36 CFR 219.14.

Dated: May 16, 2008.

Rebecca Aus,

Forest Supervisor, Shoshone National Forest.
