SUPPLEMENTARY INFORMATION: This study is being conducted under MSPB's statutory authority to "conduct, from time to time, special studies relating to the civil service and to other merit systems in the executive branch, and report to the President and to the Congress as to whether the public interest in a civil service free of prohibited personnel practices is being adequately protected." (section 1204, title 5 U.S.C.) In addition, the Code of Federal Regulations also describes the role of MSPB's Office of Policy and Evaluation as responsible for carrying out "the Board's statutory responsibility to conduct special reviews and studies of the civil service and other merit systems in the Executive Branch, as well as oversight reviews of the significant actions of the Office of Personnel Management." 5 CFR 1200.10(b)(6). The MSPB intends to ask for approval to collect information to support its study on Federal Telework. Respondents will be asked to complete a survey(s) about their experiences with and perceptions of Telework and other related topics about their organizations and careers.

Burden Statement: The reporting burden for the collection of information on this request is estimated to vary from 15 minutes to 30 minutes, with an average of 20 minutes, including time for reviewing instructions and completing and reviewing the collection of information. The respondents will be selected via stratified random sampling to facilitate representative samples of employees. We plan to survey 28,000 people with one response per person. We estimate the response rate to be 60 percent (16,800 total responses) resulting in an annual reporting burden of 5,544 hours (.33 hours × 16,800).

Clerk of the Board.
