

person. The hours burden imposed by the pretest will be approximately 8.5 hours (100 respondents 5 minutes for each).

The FTC staff estimates that the survey of 1,000 respondents also will require no more than 5 minutes per person or 83.5 hours (1,000 respondents 5 minutes for each).

Thus, the estimated total hours burden attributable to the telephone survey research is 242 hours (150 + 8.5 + 83.5).

The combined total hours burden attributable to both research projects is 378.5 hours (242 + 136.5).

3. Estimated Cost Burden

The cost per respondent should be negligible. Participation is voluntary and will not require any labor expenditures by respondents nor capital, start-up, operation, maintenance, or other similar costs.
