

L. 92-463), as amended, notice is hereby given that a meeting of the National Council on the Arts will be held on June 26-27, 2008 in Rooms 527 and M-09 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, NW., Washington, DC 20506.

A portion of this meeting, from 2 p.m.-5 p.m. on June 26th, will be closed for National Medal of Arts review and recommendations. The remainder of the meeting, from 9 a.m. to 11:45 a.m. on June 27th (ending time is approximate), will be open to the public on a space available basis. After opening remarks and announcements, including a tribute to Robert Rauschenberg, there will be an update from the Government Affairs office. The meeting will include a presentation on *The Big Read*. After the presentation the Council will review and vote on applications and guidelines, and the meeting will conclude with a general discussion.

If, in the course of the open session discussion, it becomes necessary for the Council to discuss non-public commercial or financial information of intrinsic value, the Council will go into closed session pursuant to subsection (c)(4) of the Government in the Sunshine Act, 5 U.S.C. 552b. Additionally, discussion concerning purely personal information about individuals, submitted with grant applications, such as personal biographical and salary data or medical information, may be conducted by the Council in closed session in accordance with subsection (c)(6) of 5 U.S.C. 552b.

Any interested persons may attend, as observers, Council discussions and reviews that are open to the public. If you need special accommodations due to a disability, please contact the Office of AccessAbility, National Endowment for the Arts, 1100 Pennsylvania Avenue, NW., Washington, DC 20506, 202/682-5532, TTY-TDD 202/682-5429, at least seven (7) days prior to the meeting.

Further information with reference to this meeting can be obtained from the Office of Communications, National Endowment for the Arts, Washington, DC 20506, at 202/682-5570.

Dated: June 2, 2008.

Kathy Plowitz-Worden,

Panel Coordinator, Office of Guidelines and Panel Operations.

BILLING CODE 7537-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-331]

FPL Energy Duane Arnold, LLC; Notice of Withdrawal of Application for Amendment to Facility Operating License No. DPR-49

The U.S. Nuclear Regulatory Commission (NRC, the Commission) has granted the request of FPL Energy Duane Arnold, LLC (the licensee) to withdraw its November 14, 2007, application for proposed amendment (Agencywide Documents Access and Management System (ADAMS) Accession No. ML073320232) to Facility Operating License No. DPR-49 for the Duane Arnold Energy Center, located in Linn County.

The proposed amendment would have revised Technical Specification (TS) 5.5.12, "Primary Containment Leakage Rate Testing Program," to allow use of the requirements of American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code (the Code), Section XI, Subsection IWE for visual examination of the steel containment. This license amendment request was consistent with NRC-approved Technical Specification Task Force (TSTF) Traveler number TSTF-343, Revision 1, "Containment Structural Integrity."

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on January 28, 2008 (73 FR 5220). However, by letter dated April 23, 2008, ADAMS Accession No. ML081270233, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated November 14, 2007, and the licensee's letter dated April 23, 2008, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 30th day of May 2008.

For the Nuclear Regulatory Commission.

Karl Feintuch,

Project Manager, Plant Licensing Branch III-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Final Regulatory Guide: Issuance, Availability

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Issuance, Availability of Regulatory Guide 1.210.

FOR FURTHER INFORMATION CONTACT:

Satish Aggarwal, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone (301) 415-6005 or e-mail to SKA@nrc.gov.

SUPPLEMENTARY INFORMATION: The U.S. Nuclear Regulatory Commission (NRC) is issuing the new Regulatory Guide 1.210, "Qualification of Safety-Related Battery Chargers and Inverters for Nuclear Power Plants." The NRC's regulatory guides describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The regulations in Title 10, Part 50, "Domestic Licensing of Production and Utilization Facilities," of the Code of Federal Regulations (10 CFR Part 50) require that structures, systems, and components that are important to safety in a nuclear power plant must be designed to accommodate the effects of environmental conditions (i.e., remain functional under postulated design-basis events (DBEs)). Toward that end, the general requirements appear in General Design Criterion (GDC) 1, "Quality Standards and Records," GDC 2, "Design Bases for Protection Against Natural Phenomena," GDC 4, "Environmental and Dynamic Effects Design Bases," and GDC 23, "Protection System Failure Modes," of Appendix A, "General Design Criteria for Nuclear Power Plants," to 10 CFR Part 50. Augmenting those general requirements, 10 CFR 50.49, "Environmental Qualification of Electric Equipment Important to Safety for Nuclear Power Plants," contains the specific
