

a currently approved collection, 1600–0005.

SUMMARY: The Department of Homeland Security, Office of the Chief Procurement Officer, Acquisition Policy and Legislation Office, will submit the following information collection request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13 (as amended), 44 U.S.C. Chapter 35). The Office of the Chief Procurement Officer is soliciting comments related to its request for extension of an existing information collection authority for the solicitation of proposal information for award of public contracts under Homeland Security Acquisition Regulation (HSAR).

DATES: Comments are encouraged and will be accepted until August 5, 2008.

This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: Comments and questions about this Information Collection Request should be forwarded to the Acquisition Policy and Legislation Office, Attn: Patricia Corrigan for the Department of Homeland Security, Office of the Chief Procurement Officer, Room 3114, Washington, DC 20528.

FOR FURTHER INFORMATION CONTACT: Patricia Corrigan, 202–447–5430 (this is not a toll free number).

SUPPLEMENTARY INFORMATION: The Department of Homeland Security (DHS), Office of the Chief Procurement Officer request renewal of an existing OMB Control Number for information requested from prospective contractors in response to agency-issued solicitations. The information requested is specific to each solicitation, and is required in order for DHS to properly evaluate offeror/bidder qualifications and capabilities in order to make informed decisions in awarding contracts. Information requested typically includes that related to offerors' or bidders' management approach, technical and pricing information, delivery and other pertinent information. This notice provides a request for renewal of OMB Control Number 1600–0005 previously granted in August 2005.

The Office of Management and Budget is particularly interested in comments regarding:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Analysis:

Agency: Department of Homeland Security, Office of the Chief Procurement Officer, Acquisition Policy and Legislation Office.

Title: Solicitation of Proposal Information for Award of Public Contracts.

OMB Number: 1600–0005.

Frequency: Once.

Affected Public: Businesses and individuals.

Estimated Number of Respondents: 10,850.

Estimated Time per Respondent: 14 hours.

Total Burden Hours: 151,900 annual burden hours.

Total Burden Cost (capital/startup): \$0.00.

Total Burden Cost (operating/maintaining): \$0.00.

Richard Mangogna,
Chief Information Officer.

BILLING CODE 4410–10–P

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Renewal From OMB of One Current Public Collection of Information: Airport Security

AGENCY: Transportation Security Administration, DHS.

ACTION: Notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on one currently approved Information Collection Requirement (ICR), abstracted below, that we will submit to the Office of Management and Budget (OMB) for renewal in compliance with the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. The collection

involves implementing certain provisions of the Aviation Security Improvement Act of 1990 and the Aviation and Transportation Security Act that relate to the security of persons and property at airports operating in commercial air transportation.

DATES: Send your comments by August 5, 2008.

ADDRESSES: Comments may be mailed or delivered to Joanna Johnson, Communications Branch, Business Management Office, Operational Process and Technology, TSA–32, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202–4220.

FOR FURTHER INFORMATION CONTACT: Joanna Johnson at the above address, or by telephone (571) 227–3651 or facsimile (571) 227–3588.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at www.reginfo.gov. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

(1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

1652–0002; Airport Security, 49 CFR part 1542. The Federal Aviation Administration (FAA) initially required this collection under 14 CFR part 107 (now 49 CFR part 1542) and cleared under OMB control number 2120–0656. The responsibility for the collection was transferred to TSA from FAA on November 19, 2001 and subsequently assigned OMB control number 1652–0002. Part 1542, Airport Security, implements certain provisions of the Aviation Security Improvement Act of

1990 (Pub. L. 101–604, November 16, 1990) and the Aviation and Transportation Security Act (Pub. L. 107–71, November 19, 2001), as amended, that relates to the security of persons and property at airports operating in commercial air transportation. TSA is seeking renewal of this information collection because airport security programs are needed to provide for the safety and security of persons and property on an aircraft operating in commercial air transportation against acts of criminal violence, aircraft piracy, and the introduction of an unauthorized weapon, explosive, or incendiary onto an aircraft. The information being collected aids in the effectiveness of passenger screening procedures and assists TSA in complying with Congressional reporting requirements. The affected public is an estimated 454 regulated airport operators. The current estimated annual burden is 535,705 hours annually.

Issued in Arlington, Virginia, on June 3, 2008.

Fran Lozito,

*Director, Business Management Office,
Operational Process and Technology.*

DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

Intent To Request Approval From OMB of One New Public Collection of Information: Threat and Vulnerability Assessment for General Aviation Airports

AGENCY: Transportation Security Administration, DHS.

ACTION: Notice.

SUMMARY: The Transportation Security Administration (TSA) invites public comment on a new information collection requirement abstracted below that the agency will submit to the Office of Management and Budget (OMB) for approval in compliance with the Paperwork Reduction Act. The collection will include the submission of information pertaining to security concerns specific to each individual airport, as perceived by the airport operators of approximately 3,000 general aviation airports. The information collected is part of a program designed to perform a standardized threat and vulnerability assessment program for general aviation airports. The information collected will

also be used to provide context for a feasibility study of the development of a program, based upon a risk-management approach, to provide grants to operators of general aviation airports for projects to upgrade security at such airports. A grant program will be established only if the Administrator determines that such a program is feasible based upon the information collected and additional research outside of the scope of this notice.

DATES: Send your comments by August 5, 2008.

ADDRESSES: Comments may be mailed or delivered to Joanna Johnson, Communications Branch, Business Management Office, Operational Process and Technology, TSA–32, Transportation Security Administration, 601 South 12th Street, Arlington, VA 22202–4220.

FOR FURTHER INFORMATION CONTACT: Joanna Johnson at the above address, or by telephone (571) 227–3651 or facsimile (703) 603–0822.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The Information Collection Requirement (ICR) documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Purpose of Data Collection

Section 1617(k)(1) of the Implementing Recommendations of the 9/11 Commission Act of 2007 (Pub. L. 110–53, 121 Stat. 266, 488, Aug. 3, 2007) requires that the TSA Administrator develop a standardized threat and vulnerability assessment

program for general aviation airports and implement a program to perform such assessments on a risk-management basis at general aviation airports. To accomplish this task successfully, the collection of this information is essential. Section 1617(k)(2) requires the TSA Administrator to initiate and complete a study of the feasibility of a risk-managed program to provide grants to operator of general aviation airports for projects to upgrade security. The assessment data will also provide necessary background information and context for the feasibility study of the grant program.

Description of Data Collection

TSA seeks the collection of information regarding threat and vulnerability assessments from approximately 3,000 general aviation airports. The collection will consist of several elements: (1) A security self-assessment that the airport operators can perform on their airport using a set of guidelines provided by TSA (available to the public on the TSA Web site); (2) a short series of “yes” or “no” questions; and (3) a narrative field wherein responders can expand on matters of concern to them. The information TSA seeks should be readily available to the airport operators and should take no more than 20–30 minutes to collect and submit. Each airport operator will need to sign on to a Web site hosted by a private entity (2 minutes), complete the assessment (17–27 minutes) and submit the results (1 minute), for a total time burden of 20–30 minutes. Therefore, based on the total number of general aviation airport operators expected to participate and the approximate estimated time for each to complete and submit the survey questionnaire, the approximate total burden to the public should not exceed 1,500 hours (3,000 airport operators × 30 minutes).

Use of Results

TSA will use these results to assess vulnerabilities at any general aviation airport and recommend security measures to mitigate any significant threat or vulnerabilities. The assessment data could also be used in the implementation of a grant program, as described above, if such a program is determined needed and feasible.

Issued in Arlington, Virginia, on May 30, 2008.

Fran Lozito,
