[Docket No. CP08-63-000]

**Tennessee Gas Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Fitchburg Expansion Project**

June 2, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Tennessee Gas Pipeline Company (Tennessee) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of Tennessee's proposed Fitchburg Expansion Project (Project). The Project would involve replacing approximately 5.1 miles of 6-inch-diameter pipeline with 12-inch-diameter pipeline on Tennessee's existing Line 268-100 (Fitchburg Lateral) in Worcester County, Massachusetts; installing a pig launcher facility at the beginning of the Fitchburg Lateral in Framingham, Middlesex County, Massachusetts; and installing a pig receiver at the terminus of the Fitchburg Lateral (Milepost 5.1) in Lunenburg, Worcester County. The purpose of the Fitchburg Expansion Project is to provide 12,300 dekatherms per day of firm transportation service for the Massachusetts Development Financial Agency.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to federal, state, and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important

that we receive your comments before the date specified below.

#### North Allegheny Wind, LLC; Notice of Issuance of Order

June 2, 2008.

North Allegheny Wind, LLC (Allegheny) filed an application for market-based rate authority, with an accompanying tariff. The proposed market-based rate tariff provides for the sale of energy, capacity and ancillary services at market-based rates. Allegheny also requested waivers of various Commission regulations. On May 13, 2008, pursuant to delegated authority, the Director, Division of Tariffs and Market Development-West, granted the requests for blanket approval under Part 34 (Director's Order). Notice is hereby given that the deadline for filing protests is June 12, 2008.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, Allegheny is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise

in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of Allegheny, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of Allegheny's issuance of securities or assumptions of liability.
