

maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Leather finishing operations.

Estimated Number of Respondents:

10.

Frequency of Response: Initially, occasionally, and annually.

Estimated Total Annual Hour Burden: 334.

Estimated Total Annual Cost:

\$21,279.00, inclusion of labor costs.

There are no annualized capital/startup and annual O&M costs associated with this ICR.

Changes in the Estimates: There is no change in the labor hours or cost in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and there are not anticipated changes over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR are used in this ICR, and there is no change in burden to industry.
