SUPPLEMENTARY INFORMATION:

History

The FAA published this direct final rule with a request for comments in the **Federal Register** on January 31, 2008 (73 FR 5739) to establish Class E airspace at Lewisburg, PA. After publication, it was discovered that the airport reference point of the Evangelical Community Hospital East Heliport was incorrectly published as "lat. 40°58'47" N., long. 76°53'08" W." The coordinates should have read "lat. 40°58'45" N., long. 76°53'09" W." This action corrects that error.

Confirmation of Effective Date

The FAA uses the direct final rulemaking procedure for a non controversial rule where the FAA believes that there will be no adverse public comment. This direct final rule advised the public that no adverse comments were anticipated, and that unless a written adverse comment, or a

written notice of intent to submit such an adverse comment, were received within the comment period, the regulation would become effective on April 10, 2008. It further advised that a confirmation docket would be published in the **Federal Register** confirming the date. This docket completes that requirement. No adverse comments were received, and thus this notice confirms that effective date.
