AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Notice.

The meeting will address technical issues relating to payment determinations for a specified list of new clinical laboratory codes. The development of the codes for clinical laboratory tests is largely performed by the CPT Editorial Panel and will not be further discussed at the CMS meeting.

DATES: The public meeting is scheduled for Monday, July 14, 2008 from 9 a.m. to 2 p.m., Eastern Standard Time (EST).

ADDRESSES: The public meeting will be held in the main auditorium of the central building of the Centers for Medicare & Medicaid Services (CMS) located at 7500 Security Boulevard, Baltimore, Maryland 21244.

FOR FURTHER INFORMATION CONTACT: Glenn McQuirk, (410) 786-5723.

SUPPLEMENTARY INFORMATION:

I. Background

Section 531(b) of the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 (BIPA), Public Law 106-554, mandated procedures that permit public consultation for payment determinations for new clinical laboratory tests under Part B of title XVIII of the Social Security Act (the Act) in a manner consistent with the procedures established for implementing coding modifications for International Classification of Diseases (ICD-9-CM). The procedures and public meeting announced in this notice for new clinical laboratory tests are in accordance with the procedures published on November 23, 2001 in the **Federal Register** (66 FR 58743) to implement section 531(b) of BIPA. Also, section 942(b) of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (MMA), Public Law 108-173, added section 1833(h)(8)(B)(iii) of the Act to require that we convene a public meeting not less than 30 days after publication of this notice in the **Federal Register** to receive comments and recommendations (and data on which recommendations are based) for establishing payment amounts for new clinical laboratory tests.

A newly created Current Procedural Terminology (CPT) code can either represent a refinement or modification of existing test methods, or a substantially new test method. The preliminary list of newly created CPT codes for the calendar year (CY) 2009 will be published on our Web site at <http://www.cms.hhs.gov/>

ClinicalLabFeeSched approximately mid-June 2008.

Two methods are used to establish payment amounts for tests paid on the clinical laboratory fee schedule. The first method, called cross-walking, is used when a new test is determined to be similar to an existing test, multiple existing test codes, or a portion of an existing test code. The new test code is then assigned the related existing local fee schedule amounts and the related existing national limitation amount. Payment for the new test code is made at the lesser of the local fee schedule amount or the national limitation amount. The second method, called gap-filling, is used when no comparable, existing test is available. When using this method, instructions are provided to each Medicare carrier or A/B MAC to determine a payment amount for its geographic area(s) for use in the first year. These determinations are based on the following sources of information (if available): Charges for the test and routine discounts to charges; resources required to perform the test; payment amounts determined by other payers; and charges, payment amounts, and resources required for other tests that may be comparable or otherwise relevant. The carrier-specific amounts are used to establish a national limitation amount for following years. For each new clinical laboratory test code, a determination must be made to either cross-walk or to gap-fill, and, if cross-walking is appropriate, to know what tests to cross-walk.

II. Format

This meeting is open to the public. The on-site check-in for visitors will be held from 8:30 a.m. to 9 a.m., followed by opening remarks. Registered persons from the public may discuss and recommend payment determinations for specific new CPT codes for the CY 2009 Clinical Laboratory Fee Schedule.

Oral presentations must be brief and must be accompanied by three written copies. Presenters may also make copies available for approximately 50 meeting participants. Presenters should address the—(1) new test code(s) and descriptor; (2) the test purpose and method; (3) costs; (4) charges; and (5) make a recommendation with rationale for one of two methods (cross-walking or gap-fill) for determining payment for new clinical laboratory codes. Additionally, the presenters should provide the data on which their recommendations are based. Presentations that do not address the five items may be considered incomplete and may not be considered by CMS when making a payment determination. CMS may request
