

holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The applications also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than July 10, 2008.

A. Federal Reserve Bank of Philadelphia (Michael E. Collins, Senior Vice President) 100 North 6th Street, Philadelphia, Pennsylvania 19105–1521:

1. *Nova Financial Holdings, Inc.*, Berwyn, Pennsylvania, to acquire 100 percent of the voting shares of Pennsylvania Business Bank, Philadelphia, Pennsylvania.

Board of Governors of the Federal Reserve System, June 10, 2008.

Robert deV. Frierson,

Deputy Secretary of the Board.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404–639–5960 and send comments to Maryam I. Daneshvar, CDC Acting Reports Clearance Officer, 1600 Clifton Road, MS–D74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Evaluation Models to Assess Patient Perspectives on Opt-out HIV testing in Clinical Settings—New—National

Center for HIV, Viral Hepatitis, STD and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In 2006, CDC published the *Revised Recommendations for HIV Testing of Adults, Adolescents and Pregnant Women in Health Care Settings* which recommends routine, opt-out HIV testing to persons 13–64 years of age in health care settings. The goal of this project is to develop evaluation models for health care providers in a variety of settings to independently assess the effect that expanded HIV screening activities have on patient attitudes toward and acceptance of HIV testing.

The evaluation models will be packaged into a toolkit containing educational materials, administrative tools and a model questionnaire to measure patients' perceptions of their ability to decline testing, the sufficiency and effectiveness of methods used to impart information prior to testing, and satisfaction with the testing process.

As part of the development of a model questionnaire for inclusion in the toolkit, three health care settings (a hospital emergency department, a private primary care practice and a public primary care practice) will be selected to pilot test the questionnaire. In each health care site, 150 patients will be asked to voluntarily complete a brief computer assisted self interview regarding their experience with the HIV testing process during their health care visit.

Collection of data will include information on patient demographics and current behaviors that may facilitate HIV transmission; perceptions regarding pressure to take the test; confidentiality and privacy during testing; and patient satisfaction and acceptance of opt-out HIV testing. For persons who refused HIV testing during their visit, information about refusal will be collected.

Results from the three pilot sites will be assessed to understand issues of feasibility of the model questionnaire and validity of the included items and scales. The findings from the three site evaluations will be used to improve the model questionnaire and protocols included in the evaluation models toolkit.

CDC plans to complete data collection in 3 health care settings in one year. CDC estimates that 188 patients will be asked to participate at each site during the one year of data collection and that 80% will accept, resulting in approximately 450 new survey respondents across all sites. The average
