## ENVIRONMENTAL PROTECTION AGENCY

[EPA-R09-OAR-2008-0443; FRL-8580-1]

### Adequacy Status of Motor Vehicle Budget in Submitted Five Percent Plan for PM-10 for the Phoenix Metropolitan Nonattainment Area for Transportation Conformity Purposes; Arizona

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of Adequacy.

**SUMMARY:** In this notice, EPA is notifying the public that the Agency has found that the motor vehicle emissions budget in the submitted *MAG 2007 Five Percent Plan for PM-10 for the Maricopa County Nonattainment Area (December 2007)* ("2007 MAG 5% Plan") is adequate for transportation conformity purposes. The 2007 MAG 5% Plan was submitted to EPA on December 21, 2007 by the Arizona Department of Environmental Quality as a revision to the Arizona state implementation plan. The 2007 MAG 5% Plan includes a demonstration of no less than five percent annual emissions reductions in particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM-10) and a demonstration of PM-10 attainment in the Phoenix metropolitan area by 2010. As a result of our finding, the Maricopa Association of Governments and the U.S. Department of Transportation must use the motor vehicle emissions budget from the submitted five percent plan for PM-10 for future conformity determinations.

**DATES:** This finding is effective July 1, 2008.
