

First Street, NE., Washington, DC 20426. All filings with the Commission must include on the first page, the project name (Yuba-Bear Project) and number (P-2266-096), and bear the heading "Comments on Pre-Application Document," "Study Requests," "Comments on Scoping Document 1," "Request for Cooperating Agency Status," or "Communications to and from Commission Staff." Any individual or entity interested in submitting study requests, commenting on the PAD or SD1, and any agency requesting cooperating status must do so by August 11, 2008.

Comments on the PAD and SD1, study requests, requests for cooperating agency status, and other permissible forms of communications with the Commission may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CF 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-filing" link.

p. Our intent is to prepare an Environmental Impact Statement (EIS) for which the planned meetings will satisfy the NEPA scoping requirements. We anticipate preparing a multi-project EIS that would also consider the proposed relicensing of Pacific Gas & Electric Company's Drum-Spaulding Hydroelectric Project (FERC No. 2310-173) and Rollins Transmission Line Project (FERC No. 2784-003). Because these three projects are located in the same watersheds and have the same license expiration dates, NID and PG&E have decided, to the extent practical, to cooperate and coordinate on their relicensing efforts. The scoping meetings and site visits discussed below will address all three projects.

Scoping Meetings

Commission staff will hold two scoping meetings in the vicinity of the project at the times and places noted below. The daytime meeting will focus on resource agency, Indian tribes, and non-governmental organization concerns, while the evening meeting is primarily for receiving input from the public. We invite all interested individuals, organizations, and agencies to attend one or both of the meetings, and to assist staff in identifying particular study needs, as well as the scope of environmental issues to be addressed in the environmental document. The times and locations of these meetings are as follows:

Daytime Scoping Meeting

Date and Time: Tuesday, June 24, 2008, 9 a.m.

Location: Auburn Holiday Inn Hotel, 120 Grass Valley Highway, Auburn, CA.

Evening Scoping Meeting

Date and Time: Tuesday, June 24, 2008, 7 p.m.

Location: Gold Miners Inn Holiday Inn Express Hotel, 121 Bank Street, Grass Valley, CA.

Scoping Document 1 (SD1), which outlines the subject areas to be addressed in the environmental document, was mailed to the individuals and entities on the Commission's mailing list on May 22, 2008. Copies of SD1 will be available at the scoping meetings, or may be viewed on the web at <http://www.ferc.gov>, using the "eLibrary" link. Follow the directions for accessing information in paragraph n. Based on all oral and written comments, a Scoping Document 2 (SD2) may be issued. SD2 may include a revised process plan and schedule, as well as the list of issues identified through the scoping process.

Site Visit

The licensees and Commission staff will visit the project facilities on Tuesday, June 17, Wednesday, June 18, and Thursday, June 19, 2008, starting at 8 a.m. and ending at or about 5 a.m. Participants should meet by the start time as follows: (1) On June 17 at the Discovery Trail in Bear Valley; (2) on June 18 at the Alta Service Center; and (3) on June 19 at Halsey Forebay. Participants are responsible for their own transportation; four-wheel-drive vehicles are recommended. Anyone interested in attending the site visit should contact Mr. James Lynch at (916) 564-4214.

Meeting Objectives

At the scoping meetings, staff will: (1) Initiate scoping of the issues; (2) review and discuss existing conditions and resource management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss the appropriateness of any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the PAD in preparation for the scoping meetings.

Directions on how to obtain a copy of the PAD and SD1 are included in item n. of this document.

Meeting Procedures

The meetings will be recorded by a stenographer and will become part of the formal record of the Commission proceeding on the project.

Kimberly D. Bose,
Secretary.
