(ii) An inquiry concerning the technology, followed by an application for a nonexclusive license to the technology in which the applicant states that it already has brought the invention(s) to practical application or is likely to bring the invention(s) to practical application expeditiously.

The Department will review all timely written responses to this notice, and will proceed with negotiating the license if, after consideration of written responses to this notice, a finding is made that the license is in the public interest.
