

(A) State the specific goals and objectives of the student internship program (for each phase or component, if applicable);

(B) Detail the knowledge, skills, or techniques to be imparted to the student intern (for each phase or component, if applicable); and

(C) Describe the methods of performance evaluation and the frequency of supervision (for each phase or component, if applicable).

(8) *Program exclusions.* A sponsor designated by the Department to administer a student internship program must:

(i) Not place a student intern in an unskilled or casual labor position, in a position that requires or involves child care or elder care, a position in the field of aviation, or, in clinical positions or engaging in any other kind of work that involves patient care or contact, including any work that would require student interns to provide therapy, medication, or other clinical or medical care (e.g., sports or physical therapy, psychological counseling, nursing, dentistry, veterinary medicine, social work, speech therapy, or early childhood education);

(ii) Not place a student intern in a position, occupation, or business that could bring the Exchange Visitor Program or the Department into notoriety or disrepute;

(iii) Not engage or otherwise cooperate or contract with a staffing/employment agency to recruit, screen, orient, place, evaluate, or train student interns, or in any other way involve such agencies in an Exchange Visitor Program student internship program;

(iv) Ensure that the duties of a student intern as outlined in the T/IPP will not involve more than 20 per cent clerical work, and that all tasks assigned to a student intern are necessary for the completion of the student internship program; and

(v) Ensure that all "Hospitality and Tourism" student internship programs of six months or longer contain at least three departmental or functional rotations.

Dated: June 7, 2008.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 35

#### State and Local Assistance

##### *CFR Correction*

In title 40 of the Code of Federal Regulations, parts 1 to 49, revised as of July 1, 2007, on page 540, in § 35.939, in paragraph (g)(2)(ii), remove the remainder of the paragraph following "in good faith.", and reinstate paragraphs (h) through (l) to read as follows:

#### **§ 35.939 Protests.**

\* \* \* \* \*

(h) *Deferral of procurement action.* Upon receipt of a protest under paragraph (d) of this section, the grantee must defer the protested procurement action (for example, defer the issuance of solicitations, contract award, or issuance of notice to proceed under a contract) until 10 days after delivery of its determination to the participating parties. (The grantee may receive or open bids at its own risk, if it considers this to be in its best interest; and see § 35.938-4(h)(5).) Where the Regional Administrator has received a written protest under paragraph (e) of this section, he must notify the grantee promptly to defer its protested procurement action until notified of the formal or informal resolution of the protest.

(i) *Enforcement.* (1) Noncompliance with the procurement provisions of this subchapter by the grantee shall be cause for enforcement action in accordance with one or more of the provisions of § 35.965 of this subpart.

(2) If the Regional Administrator determines that a protest prosecuted pursuant to this section is frivolous, he may determine the party which prosecuted such protest to be nonresponsible and ineligible for future contract award (see also paragraph (k) of this section).

(j) *Limitation.* A protest may not be filed under this section with respect to the following:

(1) Issues not arising under the procurement provisions of this subchapter; or

(2) Issues relating to the selection of a consulting engineer, provided that a protest may be filed only with respect to the mandatory procedural requirements of §§ 35.937 through 35.937-9;

(3) Issues primarily determined by State or local law or ordinances and as to which the Regional Administrator, upon review, determines that there is no

contravening Federal requirement and that the grantee's action has a rational basis (see paragraph (e)(4) of this section).

(4) Provisions of Federal regulations applicable to direct Federal contracts, unless such provisions are explicitly referred to or incorporated in this subpart;

(5) Basic project design determinations (for example, the selection of incineration versus other methods of disposal of sludge);

(6) Award of subcontracts or issuance of purchase orders under a formally advertised, competitively bid, lump-sum construction contract. However, protest may be made with respect to alleged violation of the following:

(i) Specification requirements of § 35.936-13; or

(ii) Provisions of this subpart applicable to the procurement procedures, negotiation or award of subcontracts or issuance of purchase orders under §§ 35.937-12 (subcontracts under subagreements for architectural or engineering services) or § 35.938-9 (subcontracts under construction contracts).

(k) *Summary disposition.* The Regional Administrator may summarily dismiss a protest, without proceedings under paragraph (d) or (e) of this section, if he determines that the protest is untimely, frivolous or without merit—for example, that the protested action of the grantee primarily involves issues of State or local law. Any such determination shall refer briefly to the facts substantiating the basis for the determination.

(l) *Index.* The EPA General Counsel will publish periodically as a notice document in the Federal Register an index of Regional Administrator protest determinations. (See, e.g., 43 FR 29085, July 5, 1978.)

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R07-OAR-2008-0342; FRL-8581-7]

#### Approval and Promulgation of Implementation Plans; State of Missouri

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** EPA is taking direct final action to approve Missouri's request to revise the State Implementation Plan

(SIP). This approval will revise the SIP to include changes to the sulfur dioxide (SO<sub>2</sub>) emissions rates and averaging times for Kansas City Power & Light's Hawthorn Plant and Montrose Station in the rule, Restriction of Emission of Sulfur Compounds. Previous changes to this rule were disapproved in 2006 because EPA was concerned that the averaging times for the rates at these units had been dramatically increased from a 3-hour average to an annual average, and that the revised averaging times were not demonstrated by the state to be protective of the short-term (3- and 24-hour) SO<sub>2</sub> National Ambient Air Quality Standard (NAAQS). EPA believes that the recent changes, which EPA is now approving, have been shown by Missouri to be protective of the short-term SO<sub>2</sub> NAAQS. This revision will ensure consistency between the state and the Federally-approved rules.

**DATES:** This direct final rule will be effective August 19, 2008, without further notice, unless EPA receives adverse comment by July 21, 2008. If adverse comment is received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R07-OAR-2008-0342, by one of the following methods:

1. <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.
2. *E-mail:* [algie-eakin.amy@epa.gov](mailto:algie-eakin.amy@epa.gov).
3. *Mail:* Amy Algie-Eakin, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.
4. *Hand Delivery or Courier.* Deliver your comments to Amy Algie-Eakin, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

**Instructions:** Direct your comments to Docket ID No. EPA-R07-OAR-2008-0342. EPA's policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through <http://www.regulations.gov> or e-mail information that you consider to be CBI or otherwise protected. The [http://](http://www.regulations.gov)

[www.regulations.gov](http://www.regulations.gov) Web site is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

**Docket:** All documents in the docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in <http://www.regulations.gov> or in hard copy at the Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101. The Regional Office's official hours of business are Monday through Friday, 8 to 4:30 excluding Federal holidays. The interested persons wanting to examine these documents should make an appointment with the office at least 24 hours in advance.

**FOR FURTHER INFORMATION CONTACT:** Amy Algie-Eakin at (913) 551-7942 or by e-mail at [algie-eakin.amy@epa.gov](mailto:algie-eakin.amy@epa.gov).

**SUPPLEMENTARY INFORMATION:** Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This section provides additional information by addressing the following questions:

- What is a SIP?
- What is the Federal approval process for a SIP?
- What does Federal approval of a state regulation mean to me?
- What is the background of this action?
- What is being addressed in this document?
- Have the requirements for approval of a SIP revision been met?
- What action is EPA taking?

### What is a SIP?

Section 110 of the Clean Air Act (CAA) requires states to develop air pollution regulations and control strategies to ensure that state air quality meets the national ambient air quality standards established by EPA. These ambient standards are established under section 109 of the CAA, and they currently address six criteria pollutants. These pollutants are: carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide.

Each state must submit these regulations and control strategies to us for approval and incorporation into the Federally-enforceable SIP.

Each federally-approved SIP protects air quality primarily by addressing air pollution at its point of origin. These SIPs can be extensive, containing state regulations or other enforceable documents and supporting information such as emission inventories, monitoring networks, and modeling demonstrations.

### What is the Federal approval process for a SIP?

In order for state regulations to be incorporated into the Federally-enforceable SIP, states must formally adopt the regulations and control strategies consistent with state and Federal requirements. This process generally includes a public notice, public hearing, public comment period, and a formal adoption by a state-authorized rulemaking body.

Once a state rule, regulation, or control strategy is adopted, the state submits it to us for inclusion into the SIP. We must provide public notice and seek additional public comment regarding the proposed Federal action on the state submission. If adverse comments are received, they must be addressed prior to any final Federal action by us.

All state regulations and supporting information approved by EPA under section 110 of the CAA are incorporated into the Federally-approved SIP. Records of such SIP actions are maintained in the Code of Federal Regulations (CFR) at title 40, part 52, entitled "Approval and Promulgation of Implementation Plans." The actual state regulations which are approved are not reproduced in their entirety in the CFR outright but are "incorporated by reference," which means that we have approved a given state regulation with a specific effective date.

### What does Federal approval of a state regulation mean to me?

Enforcement of the state regulation before and after it is incorporated into

the Federally-approved SIP is primarily a state responsibility. However, after the regulation is Federally approved, we are authorized to take enforcement action against violators. Citizens are also offered legal recourse to address violations as described in section 304 of the CAA.

#### What is the background of this action?

In 2006, EPA disapproved Missouri's request to amend the SIP to include revisions to the Restriction of Emission of Sulfur Compounds rule relating to a change in emissions rates and averaging times for the Kansas City Power & Light (KCP&L) Hawthorn Plant and Montrose Station. EPA was concerned that, although the emissions rates were decreased, the averaging times for the rates at these units had been dramatically increased from a 3-hour average to an annual average and that the state had not shown that the revised averaging times were protective of the short-term SO<sub>2</sub> NAAQS. (See, 71 FR 12623, March 13, 2006.)

Since 2006, the Missouri Department of Natural Resources has revised Table 1 in the Restriction of Emission of Sulfur Compounds rule to change the averaging times for the emissions rates at the Hawthorn Plant and Montrose Station. For the Hawthorn Plant, Table 1 reflects the averaging time and emission rate consistent with the Prevention of Significant Deterioration (PSD) permit issued for Unit 5A in 1999. This emissions limit had been determined to be adequate to protect the SO<sub>2</sub> NAAQS. For the Montrose Station unit, modeling (using the AERMOD model) was conducted to determine an emission rate which would be protective of the short term SO<sub>2</sub> NAAQS. Modeling results indicate that the emission rate should not exceed 3.9 lbs/MMBTU, on a 24-hour average, in order to avoid exceeding the 3-hour and 24-hour SO<sub>2</sub> NAAQS. The state has adequately demonstrated that this emissions limit for the Montrose Station is protective of the NAAQS.

#### What is being addressed in this document?

EPA is approving a revision to Missouri's SIP to include revisions to Table 1 of Missouri rule, 10 CSR 10-6.260 Restriction of Emission of Sulfur Compounds. Missouri has demonstrated that the revisions in Table 1 for KCP&L's Hawthorn Plant and for KCP&L's Montrose Station are protective of the 3-hour and 24-hour SO<sub>2</sub> NAAQS.

#### Have the requirements for approval of a SIP revision been met?

The state submittal has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submittal also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

#### What action is EPA taking?

EPA is taking final action to approve Missouri's request to revise the SIP as submitted on March 28, 2008. We are processing this action as a direct final action because the revisions make routine changes to the existing rules which are noncontroversial. Therefore, we do not anticipate any adverse comments. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment.

#### Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or

safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 19, 2008. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

#### List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead,

Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: June 9, 2008.

John B. Askew,

Regional Administrator, Region 7.

■ 40 CFR part 52 is amended as follows:

**PART 52—[AMENDED]**

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

**Subpart AA—Missouri**

■ 2. In § 52.1320 the table in paragraph (c) is amended under Chapter 6 by

revising the entry for 10–6.260 to read as follows:

**40 CFR Part 52**

[EPA–R07–OAR–2008–0392; FRL–8581–9]

**Approval and Promulgation of Implementation Plans; State of Missouri**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** EPA is approving a State Implementation Plan (SIP) revision submitted by the state of Missouri to amend the Missouri SIP to include revisions to the Kansas City Solvent Metal Cleaning rule. The revisions to this rule include consolidating exemptions in the applicability section, adding new exemptions, adding definitions of new and previously undefined terms, and clarifying rule language regarding operating procedure requirements for spray gun cleaners and air-tight and airless cleaning systems. This revision will ensure consistency between the state and the Federally-approved rules.

**DATES:** This direct final rule will be effective August 19, 2008, without further notice, unless EPA receives adverse comment by July 21, 2008. If adverse comment is received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA–R07–OAR–2008–0392, by one of the following methods:

1. <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.
2. *E-mail:* [algoe-eakin.amy@epa.gov](mailto:algoe-eakin.amy@epa.gov).
3. *Mail or Hand Delivery:* Amy Algoe-Eakin, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

**Instructions:** Direct your comments to Docket ID No. EPA–R07–OAR–2008–0392. EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through [http://](http://www.regulations.gov)

[www.regulations.gov](http://www.regulations.gov) or e-mail information that you consider to be CBI or otherwise protected. The <http://www.regulations.gov> Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through <http://www.regulations.gov>, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

**Docket:** All documents in the electronic docket are listed in the <http://www.regulations.gov> index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute.
