

160.111 issued under the Ports and Waterways Safety Act.

Nontank vessels less than 1,600 gross tons are considered to pose less of a threat, in part because of the smaller quantities of fuel carried and the light weight or distillate fuel oil that they generally use. Under section 701 of the 2004 Act, these vessels are still required to submit NTVRPs consistent with 33 U.S.C. 1321(j)(5).

Until NTVRP regulations are issued and in effect, the Coast Guard will continue to issue 2-year interim operating authorization letters for NTVRPs meeting the requirements found in 33 U.S.C. 1321(j)(5)(D). Vessel owners or operators of a nontank vessel shall ensure that the plan:

(1) Is consistent with the requirements of the National Contingency Plan and Area Contingency Plans;

(2) Identifies the qualified individual having full authority to implement removal actions, and requires immediate communications between that individual and the appropriate Federal official and the persons providing personnel and equipment;

(3) Identifies, and ensures by contract or other means approved by the President the availability of private personnel and equipment necessary to remove to the maximum extent practicable a worst case discharge (including a discharge resulting from fire or explosion), and to mitigate or prevent a substantial threat of such a discharge;

(4) Describes the training, equipment testing, periodic unannounced drills, and response actions of persons on the vessel or at the facility, to be carried out under the plan to ensure the safety of the vessel or facility and to mitigate or prevent the discharge, or the substantial threat of a discharge;

(5) Is updated periodically; and

(6) Is resubmitted for approval of each significant change.

Vessel owners and operators are encouraged to submit plans in accordance with the guidance of NVIC 01-05 CH 1. Plans submitted to the Coast Guard consistent with this guidance will facilitate issuance of interim operating authorizations.

Once plans are received for review, the Coast Guard will issue an acknowledgement receipt. For plans that do not meet the elements described above, the Coast Guard will send the owner or operator a revision request identifying the deficient elements. If the Coast Guard finds the elements of a response plan to be not in compliance with the requirements of 33 U.S.C. 1321(j)(5)(D) as amended by the 2004 Act, the Coast Guard may initiate vessel

operational controls under authority of 33 U.S.C. 1233 and 33 CFR 160.111.

The Coast Guard is interested in receiving comments on this policy notice.

Dated: June 18, 2008.

Background

The Department of Homeland Security (DHS), through the United States Coast Guard and the Transportation Security Administration (TSA), issued a joint final rule (72 FR 3492; January 25, 2007) pursuant to the Maritime Transportation Security Act (MTSA), Pub. L. 107-295, 116 Stat. 2064 (November 25, 2002), and the Security and Accountability for Every Port Act of 2006 (SAFE Port Act), Pub. L. 109-347 (October 13, 2006). This rule requires all credentialed merchant mariners and individuals with unescorted access to secure areas of a regulated facility or vessel to obtain a TWIC. In this final rule, on page 3510, TSA and Coast Guard stated that a phased enrollment approach based upon risk assessment and cost/benefit would be used to implement the program nationwide, and that TSA would publish a notice in the **Federal Register** indicating when enrollment at a specific location will begin and when it is expected to terminate.

This notice provides the start date for TWIC initial enrollment at the Ports of Bridgeport, CT and New Castle, DE on June 25, 2008; Burlington, VT, Pennsbury Manor, PA, Alpena, MI, and Perth Amboy, NJ on July 2, 2008; and Evansville, IN on July 9, 2008. The Coast Guard will publish a separate notice in the **Federal Register** indicating when facilities within the Captain of the Port Zone Long Island Sound, including those in the Port of Bridgeport; Captain of the Port Zone Delaware Bay, including those in the Port of New Castle; Captain of the Port Zone Northern New England, including those in the Port of Burlington; Captain of the Port Zone Delaware Bay, including those in the Port of Pennsbury Manor; Captain of the Port Zone Sault Ste. Marie, including those in the Port of Alpena; Captain of the Port Zone New York, including those in the Port of Perth Amboy; and Captain of the Port Zone Ohio Valley, including those in the Port of Evansville must comply with the portions of the final rule requiring TWIC to be used as an access control measure. That notice will be published at least 90 days before compliance is required.

To obtain information on the pre-enrollment and enrollment process, and enrollment locations, visit TSA's TWIC Web site at <http://www.tsa.gov/twic>.
