Massachusetts Marine Sanitation Device Standard—Notice of Determination

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Determination.

SUMMARY: The Regional Administrator of the Environmental Protection Agency—New England Region, has determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the state waters of Salem Sound in the towns of Manchester-by-the-Sea, Beverly, Danvers, Salem, and Marblehead.

Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copy-righted material, will be publicly available only in hard copy. Publicly available docket materials are available electronically in <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT: Ann Rodney, U.S. Environmental Protection Agency—New England Region, One Congress Street, Suite 1100, COP, Boston, MA 02114-2023. *Telephone:* (617) 918-0538. *Fax number:* (617) 918-1505. *E-mail address:* Rodney.ann@epa.gov.

SUPPLEMENTARY INFORMATION: On May 16, 2008, EPA published a notice that the Commonwealth of Massachusetts had petitioned the Regional Administrator, Environmental

Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the state waters of Manchester-by-the-Sea, Beverly, Danvers, Salem, and Marblehead. No comments were received on this petition.

The petition was filed pursuant to section 312(f)(3) of Public Law 92-500, as amended by Public Laws 95-217 and 100-4, for the purpose of declaring

these waters a No Discharge Area (NDA).

Section 312(f)(3) states: After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such States require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except

that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such water to which such prohibition would apply.

This Notice of Determination is for the state waters of Manchester-by-the-Sea, Beverly, Danvers, Salem, and Marblehead, collectively referred to as Salem Sound. The NDA includes:

Waterbody/General Area	Latitude	Longitude
Southern Landward boundary—Marblehead town line	42°28'43" N	70°52'45" W
Southern Seaward Boundary—	42°26'33" N	70°49'05" W
Eastern Boundary—Halfway Rock	42°30'10" N	70°46'30" W
Northern Seaward boundary—3 miles off Eastern Point	42°33'03" N	70°36'06" W
Northern Landward boundary—Manchester town line	42°34'20" N	70°42'52" W

The NDA boundary includes the municipal waters of Manchester-by-the-Sea, Beverly, Danvers, Salem, and Marblehead and extends to the boundary between state and federal waters. This area includes Bakers Island, Crowninshield Island, Cat Island, Children's Island, Great and Little Misery Islands, and House Island.

The information submitted to EPA by the Commonwealth of Massachusetts

certifies that there are eight pumpout facilities located in this area. A list of the facilities, with phone numbers, locations, and hours of operation is appended at the end of this determination.

Based on the examination of the petition, its supporting documentation, and information from site visits conducted by EPA New England staff, EPA has determined that adequate

facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the area covered under this determination.

This determination is made pursuant to Section 312(f)(3) of Public Law 92-500, as amended by Public Laws 95-217 and 100-4.

Draft Toxicological Review of Carbon Tetrachloride: In Support of the Summary Information in the Integrated Risk Information System (IRIS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Listening Session.

SUMMARY: EPA is announcing a listening session to be held on July 16, 2008, during the public comment period for the external review draft document entitled, "Toxicological Review of Carbon Tetrachloride: In Support of Summary Information on the Integrated Risk Information System (IRIS)." This listening session is a new step in EPA's revised process, announced on April 10, 2008, for development of human health assessments for inclusion on IRIS. The purpose of the listening session is to allow all interested parties to present scientific and technical comments on draft IRIS health assessments to EPA and other interested parties during the public comment period and prior to the external peer review meeting. EPA welcomes the scientific and technical comments that will be provided to the Agency by the listening session participants. The comments will be considered by the Agency as it revises the draft assessment in response to the independent external peer review and public comments. All presentations will become part of the official and public record.

The EPA's draft assessment and peer review charge are available via the Internet on the National Center for Environmental Assessment's (NCEA) home page under the Recent Additions and the Data and Publications menus at <http://www.epa.gov/ncea>.

DATES: The listening session on the draft IRIS health assessment for carbon tetrachloride will be held on July 16, 2008, beginning at 9 a.m. and ending at 4 p.m., Eastern Daylight Time. If you wish to make a presentation at the listening session, you should register by July 9, 2008, and indicate that you wish to make oral comments at the session, and indicate the length of your presentation. At the time of your registration, please indicate if you

require audio-visual aid (e.g., lap top and slide projector). In general, each presentation should be no more than 30 minutes. If, however, there are more requests for presentations than the allotted time will allow, then the time limit for each presentation will be adjusted accordingly. Participants who have registered to attend may also register at the beginning of the listening session to make comments. The order of the presentations will follow the order of registration. A copy of the agenda for the listening session will be available at the meeting.

The public comment period for review of this draft assessment was announced previously in the **Federal Register** (FR) (73 FR 29502) on May 21, 2008. As stated in that FR notice, the public comment period began on May 21, 2008, and ends July 21, 2008. Any technical comments submitted during the public comment period should be in writing and must be received by EPA by July 21, 2008, according to the procedures outlined below. Only those public comments submitted using the procedures identified in the May 21, 2008 FR notice by the July 21, 2008, deadline will be provided to the independent peer-review panel prior to the peer-review meeting. The date and logistics for the peer-review meeting will be announced later in a separate FR notice.

Listening session participants who wish to have their comments available to the external peer reviewers should also submit written comments during the public comment period using the detailed and established procedures included in the aforementioned FR notice (May 21, 2008). Comments submitted to the docket prior to the end of the public comment period will be submitted to the external peer reviewers and considered by EPA in the disposition of public comments. Comments received in the docket after the public comment period closes must still be submitted to the docket but will not be submitted to the external peer reviewers.
