Joy Technologies, Inc., dba Joy Mining Machinery, Mt. Vernon Plant, Mt. Vernon, IL; Notice of Negative Determination on Remand

On October 31, 2007, the U.S. Court of International Trade (USCIT) remanded to the U.S. Department of Labor (Department) for further investigation Former Employees of Joy Technologies, Inc. v. U.S. Secretary of Labor, Court No. 06–00088.

Case History

On August 2, 2005, the International Brotherhood of Boiler-makers, Iron Ship Builders, Blacksmiths, Forgers and Helpers, Local 483, filed a petition for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA) on behalf of workers and former workers of Joy Mining Machinery, Mt. Vernon, Illinois producing underground mining equipment. The petition alleged that the Mt. Vernon facility would close September 23, 2005, due to a shift of production to Canada, China, Mexico and Russia. Administrative Record (AR) 2-3, 20.

Workers of the Mt. Vernon facility were previously denied eligibility to apply for TAA under TA–W–42,234 on the basis that the workers did not produce an article. AR 8, Supplemental Administrative Record (SAR) 127.

During the initial investigation, the petitioners submitted documents in support of the allegation that mining equipment production shifted to Mexico. AR 22–28.

Also, during the initial investigation, Joy officials provided information that the principal functions performed at the Mt. Vernon Illinois facility were building and rebuilding shuttle cars; rebuilding electrical motors used in certain types of mining machinery; and rebuilding gearboxes for armored face conveyors (AFC), AR 12, 14–15, 44. In addition, the Department learned that the Mt. Vernon facility was scheduled to close on September 23, 2005. AR 9, 12, 125.

Joy also provided information that the Mt. Vernon facility's closure was due to the relocation of operations to a new facility in Kentucky. AR 12, 15, 16, 29, 126. The new facility in Kentucky
