

V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Typically, the Agency will permit a registrant to sell and distribute existing stocks for one year after the date the cancellation request was received. Such policy is in accordance with the Agency's statement of policy as set forth in the **Federal Register** of June 26, 1991 (56 FR 29362) (FRL-3846-4). However, in this case, because Bayer Environmental Science has provided information to the Agency that it is not likely that any remaining existing stocks are out in the channels of trade, the Agency does not believe that there is a need to permit the registrant to sell or distribute existing stocks for a period of one year. In addition, the Agency does not believe that there is a need for persons other than the registrant to continue to sell and/or use existing stocks of canceled products. The Agency believes that end users have had sufficient time to exhaust those existing stocks. Therefore, the last date for end use of the product is effective on the date of publication of this cancellation order in the **Federal Register**. Pursuant to FIFRA section 6(f), the Agency hereby approves the requested cancellation of Bayleton 50 Turf and Ornamental Fungicide in WSP and Bayleton 50 WP Fungicide (EPA Registration # 432-1294).

List of Subjects

Environmental protection, Pesticides and pests.

Dated: June 17, 2008.

Steven Bradbury,

Director, Special Review and Reregistration Division, Office of Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collection Requirement Submitted to OMB for Review and Approval, Comments Requested

June 18, 2008.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before July 25, 2008. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contacts listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via Internet at Nicholas_A_Fraser@omb.eop.gov or via fax at (202) 395-5167 and to Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC or via Internet at Cathy.Williams@fcc.gov or PRA@fcc.gov. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the Web page <http://www.reginfo.gov/public/do/PRAMain>, (2) look for the section of the web page called "Currently Under Review," (3) click on the downward-pointing arrow in the "Select Agency" box below the "Currently Under Review" heading, (4) select "Federal

Communications Commission" from the list of agencies presented in the "Select Agency" box, (5) click the "Submit" button to the right of the "Select Agency" box, (6) when the list of FCC ICRs currently under review appears, look for the title of this ICR (or its OMB control number, if there is one) and then click on the ICR Reference Number to view detailed information about this ICR.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1086.

Title: Section 74.786, Digital Channel Assignments; Section 74.787, Digital Licensing; Section 74.790, Permissible Service of Digital TV Translator and LPTV Stations; Section 74.794, Digital Emissions; Section 74.796, Modification of Digital Transmission Systems and Analog Transmission Systems for Digital Operation.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; State, local or tribal government.

Number of Respondents and Responses: 8,433 respondents; 34,660 responses.

Estimated Time per Response: 0.5-4 hours.

Frequency of Response: One-time reporting requirement; Third party disclosure requirement; Recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained at 47 U.S.C. 301 of the Communications Act of 1934, as amended.

Total Annual Burden: 55,417 hours.

Total Annual Cost: \$95,734,200.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality.

Needs and Uses: 47 CFR Section 74.786(d) requires that digital LPTV and TV translator stations assigned to these channels as a companion digital channel demonstrate that a suitable in-core channel is not available. The demonstration will require that the licensee conduct a study to verify that an in-core channel is not available.

47 CFR Section 74.786(d) further requires that digital LPTV and TV translator stations proposing use of channels 52-59 notify all potentially affected 700 MHz wireless licensees of

their proposed operation not less than 30 days prior to the submission of their application. These applicants must notify wireless licensees of the 700 MHz bands comprising the same TV channel and the adjacent channel within who licensed geographic boundaries the digital LPTV or TV translator station is proposed to be located, and they must also notify licensees of co-channel and adjacent channel spectrum whose service boundaries lie within 75 miles and 50 miles, respectively, of their proposed station location.

47 CFR Section 74.786(e) allows assignment of UHF channels 60 to 69 to digital LPTV or TV translator stations for use as a digital conversion channel provided that stations proposing use of these channels notify all potentially affected 700 MHz wireless licensees of their proposed operation not later than 30 days prior to the submission of their application.

47 CFR Section 74.786(e) further provides that digital LPTV and TV translator stations proposing use of UHF channel 63, 64, 68, and 69 (public safety frequencies) as a digital conversion channel must secure a coordinated spectrum use agreement with the pertinent 700 MHz public safety regional planning committee and state administrator prior to the submission of their application.

47 CFR Section 74.786(e) Digital LPTV and TV translator stations proposing use of channels 62, 65, and 67 must notify the pertinent regional planning committee and state administrator of their proposed operation not later than 30 days prior to submission of their application.

47 CFR Section 74.787(a)(2)(iii) provides that mutually exclusive LPTV and TV translator applicants for companion digital stations will be afforded an opportunity to submit in writing to the Commission, settlements and engineering solutions to resolve their situation.

47 CFR Section 74.787(a)(3) provides that mutually exclusive applicants applying for construction permits for new digital stations and for major changes to existing stations in the LPTV service will similarly be allowed to *submit* in writing to the Commission, settlements and engineering solutions to rectify the problem.

47 CFR Section 74.787(a)(4) provides that mutually exclusive displacement relief applicants filing applications for digital LPTV and TV translator stations may be resolved by submitting settlements and engineering solutions in writing to the Commission.

47 CFR Section 74.790(f) permits digital TV translator stations to originate

emergency warnings over the air deemed necessary to protect and safeguard life and property, and to originate local public service announcements (PSAs) or messages seeking or acknowledging financial support necessary for its continued operation. These announcements or messages shall not exceed 30 seconds each, and be broadcast no more than once per hour.

47 CFR Section 74.790(e) requires that a digital TV translator station shall not retransmit the programs and signal of any TV broadcast or DTV broadcast station(s) without prior written consent of such station(s). A digital TV translator operator electing to multiplex signals must negotiate arrangements and obtain written consent of involved DTV station licensee(s).

47 CFR Section 74.790(g) requires a digital LPTV station who transmits the programming of a TV broadcast or DTV broadcast station received prior written consent of the station whose signal is being transmitted.

47 CFR Section 74.794 mandates that digital LPTV and TV translator stations operating on TV channels 22–24, 32–36, 38, and 65–69 with a digital transmitter not specifically FCC-certificated for the channel purchase and utilize a low pass filter or equivalent device rated by its manufacturer to have an attenuation of at least 85 dB in the GPS band. The licensees must retain with their station license a description of the low pass filter or equivalent device with the manufacturer's rating or a report of measurements by a qualified individual.

47 CFR Section 74.796(b)(5) requires digital LPTV or TV translator station licensees that modify their existing transmitter by use of a manufacturer-provided modification kit would need to purchase the kit and must notify the Commission upon completion of the transmitter modifications, in addition, a digital LPTV or TV translator station licensees that modify their existing transmitter and do not use a manufacturer-provided modification kit, but instead perform custom modification (those not related to installation of manufacturer-supplied and FCC-certified equipment) must notify the Commission upon completion of the transmitter modifications and shall certify compliance with all applicable transmission system requirements.

47 CFR Section 74.796(b)(6) provides that operators who modify their existing transmitter by use of a manufacturer-provided modification kit must maintain with the station's records for a period of not less than two years, and will make available to the Commission

upon request, a description of the nature of the modifications, installation and test instructions, and other material provided by the manufacturer, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission. In addition, digital LPTV and TV translator operators who custom modify their transmitter must maintain with the station's records for a period of not less than two years, and will make available to the Commission upon request, a description of the modifications performed and performance tests, the results of performance-tests and measurements on the modified transmitter, and copies of related correspondence with the Commission.

In situations where protection of an existing analog LPTV or translator station without a frequency offset prevents acceptance of a proposed new or modified LPTV, TV translator, or Class A station, the Commission requires that the existing non-offset station install at its expense offset equipment and notify the Commission that it has done so, or, alternatively, negotiate an interference agreement with the new station and notify the Commission of that agreement.

The Commission requires that wireless licensees operating on channels 52–59 and 60–69 notify (by certified mail, return receipt requested) a digital LPTV or TV translator licensee operating on the same channel or first adjacent channel of its intention to initiate or change wireless operations and the likelihood of interference from the LPTV or translator station within its licensed geographic service area. This notification should describe the facilities, associated service area, and operation of the wireless licensee with sufficient detail to permit an evaluation of the likelihood of interference.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
